

INTRODUCTION

This manual provides employees with guidelines and policy for the uniform enforcement of state, local and federal laws, as well as outlines what is expected of employees in terms of conduct, appearance, and other personnel matters. Individual orders outline the procedures to be followed in the delivery of police services to the community.

The Operations Order manual is divided into nine (9) sections as listed below, a Table of Contents, Index, and Status List. A quick review of the order titles will assist in locating the proper section. Specific information can be found by referring to the index at the back of the manual: for example, Operations Order 7.4, Booking Procedures, section 2, letter B, will be listed as 7.4.2.B. One (1) chapter, Operations Order 9.3, Civil Disturbance Response Plan, has its own index at the end of its chapter.

Certain chapters in this manual have been designated as restricted and are not for public dissemination. Employees should take measures to safeguard these policies.

M. Maricopa County Adult Probation Department	<p>(1) It is the expectation of the Department that probation officers or surveillance officers will be physically present at locations where Phoenix officers are requested to assist.</p> <p>(2) Adult probation officers have the authority of peace officers in the performance of their duties and may carry concealed firearms.</p> <p>(3) Generally, requests for assistance from probation officers will be one of the following:</p> <ul style="list-style-type: none">• Assist probation officers in arresting a probationer, either at the office or in the community, when an outstanding warrant exists and the probation officer believes there is a likelihood of resistance or danger of physical violence.• Assist probation officers in warrantless arrests of probationers when exigent circumstances require the immediate arrest of the probationer and the probation officer believes there is a likelihood of resistance or danger of physical violence.• Act as a backup when probation officers request assistance in serving search warrants and conducting warrantless searches of a probationer's person or residence when there is any likelihood of resistance or danger of physical violence, (police officers should be primarily concerned with maintaining peace and should avoid becoming actively engaged in searches; however, for officer safety, officers should frisk all subjects for weapons).• Assist probation officers when a probationer or other persons, such as friends or family members, become disruptive and the threat of physical violence is present.• Respond to an emergency call by probation officers requiring immediate backup for a volatile or potentially violent confrontation with a probationer or other person/s. <p>(4) Additionally, police officers will follow these guidelines:</p> <ul style="list-style-type: none">• Because probation officers have peace officer authority, in accordance with ARS 12-253 and the same authority to arrest as police officers, probation officers should process any arrests they make.• Police officers will assist probation officers by transporting prisoners to a jail facility, but probation officers should complete and submit their own arrest paperwork.• Surveillance officers also have the authority of peace officers relating to intensive probation probationers under their supervision; however, surveillance officers must have the prior approval of a probation officer (approval can be obtained by the telephone or radio) before an arrest is made of the probationer.• Probation officers do not need to be present when surveillance officers make an arrest, but Phoenix officers assisting surveillance officers will verify through the surveillance officer the arrest has been approved by a probation officer.• Surveillance officers should process any arrests they make.• When circumstances are such that new charges are sought against the probationer or other person/s, such as drug offenses, assault, disorderly conduct, etc., police officers will take custody of the arrestee, complete all the necessary paperwork and impounding, and book the subject/s.• Probation/surveillance officers should supplement police officers' DRs to substantiate their probable cause for the search/arrest. <p>(5) Police officers should exercise extreme caution when assisting probation and surveillance officers and should ensure sufficient police personnel are present to handle the situation.</p>

(1) Guidelines For Use	<ul style="list-style-type: none"> ECDs, such as the Taser, use compressed nitrogen gas to propel probes and wires that conduct electrical energy which overrides a subject's central nervous system, attempting to temporarily stop the subject's actions. ECDs may be used when it is objectively reasonable based on the totality of the circumstances, on subjects who are displaying active aggression, or who are placing an officer or a third party in reasonable apprehension of imminent physical injury, or to prevent a subject from harming him/herself. The following circumstances should be considered prior to use: <ul style="list-style-type: none"> * Is the subject posing an imminent threat to the safety of officers, a third party, or him/herself? * What is the severity and violence level of the crime? * Does the subject have a history of violent behavior? * If an arrest team is not available, is it feasible to delay deployment to wait for one? When the circumstances justifying the use of an ECD no longer exist, the ECD will immediately be discontinued. Employees still may use reasonable force to maintain control and to protect themselves or others from danger when such force can be justified through the totality of the circumstance

ECD holsters worn on an outer vest carrier must be in compliance with the appropriate Operations Order 3.15, Uniform Policy, and addenda. <p>EXCEPTION: Tactical Support Bureau (TSB) personnel may wear an ECD holster on an outer of vest carrier in compliance with the TSB manual.</p> <ul style="list-style-type: none"> Sworn employees assigned to specialty details will carry an ECD in accordance with approved procedures authorized by the respective bureau commander. Employees working in a non-uniform capacity that have a Department-issued ECD will have the device available in the passenger compartment of their City vehicle. Employees who have a Department-issued ECD and are working in an off-duty capacity will carry the device as if they were in an on duty status. Employees will inspect their ECD for damage, to insure all parts are present prior to the start of shift. If the ECD is damaged or parts are found missing, it will be reported to a supervisor in accordance with Operations Order 3.13, Rules and Regulations. Employees will conduct a functional test of their ECD, in accordance with established training at the beginning of each shift in order to test the operability of the ECD. Employees will not purposely strike or jab suspects with an impact weapon on the head, neck, sternum, spine, lower abdomen, groin, or kidneys unless faced with a deadly force situation. (4) Canines (K9s)	<p><u>K9s are considered a less-lethal force option.</u></p> <ul style="list-style-type: none"> K9s will not be used for control of crowds or in any circumstances where a strong potential exists for discrediting the Department. (5) Stunbag Shotguns and 37mm Direct Impact Munitions (TSB)	<ul style="list-style-type: none"> Stunbag shotguns and 37mm direct impact munitions may be used in situations where distance is necessary to maintain officer safety and the use of impact weapons is a reasonable use of force: for example, subduing a person who is threatening or attempting physical harm to himself or another. Stunbag or 37mm direct impact munition rounds should not be fired through mediums, such as glass or chain link fences, because the bag might tear and lead shot might be released. Employees should anticipate firing follow-up shots if the prior shot missed or was not effective. The affected bureau/precinct/duty commander will be immediately notified of all incidents involving the use of a stunbag shotgun or 37mm direct impact munitions. Optimal ranges for the stunbag shotgun are between five (5) feet and 20 yards. If possible, officers should consider other force options at less than five (5) feet. Mr. David Quillan, Training Manager
Business Training Consultants
1632 North 21st Street
Santa Ana, California 92701

Dear Mr. Quillan:

Re: Training Policy

Use Arial 12 font.

Spell out the month with the day and year in numerals.

Set paragraph formats for single-space with double-spacing between inside address, attention line, salutation, subject, and body of letter.

Use one space between paragraphs and after address information, except where noted otherwise.

Use titles or rank (Mr., Ms., Commander, Director, etc.).

Spell out all directions, street suffixes, and cities with two spaces between state and ZIP code.

Set text at the left margin.

This is a standard letter format used by the Phoenix Police Department. It shows the position of the subject line. The sample shown here is intended to guide all police personnel in using uniform letter formats throughout the department.

If the letter is being signed by the Police Chief, Executive Assistant Chief, Assistant Chief, or Director, the "Office of the Police Chief" letterhead will be used. The identification line will show the typist's initials and serial number, bureau fiscal identifier, path, and document name.

It will no longer be necessary to adjust the font size and margins or to line up the header section because they default to Arial font size 12 with the colored Memobird letterhead. Size 11 font may be used to conserve paper if its use allows for a single page instead of two.

Sincerely,

HOWARD T. SMITH

Subject: AUTHORIZED MEMO FORMAT ←

Subject should be in upper case.

All employees should use the Citywide Memobird Template when writing memorandums. This template is located in the Public drive in the Citywide Templates folder. Follow the format outlined in this Operations Order addendum when typing in the header section of the memo.

It will no longer be necessary to adjust the font size and margins or to line up the header section because they automatically default to Arial font size 12 in the template. Size 11 font may be used to conserve paper if its use allows for a single page instead of two. Internal memorandums will be printed on white paper with the black Citybird logo. Memos should be single-spaced, block style with no indentations. There should be one blank space between paragraphs.

The Legal Unit has indicated that there are no legal conflicts with using the black Citybird. Memorandums to external departments will use the colored Citybird logo. This will save both cost and time for our employees.

All correspondence must be routed through the bureau/precinct secretary before forwarding to the Chief's Office for signature. If you have any questions, please contact your bureau/precinct secretary.

6. M. (6) When the employee agreeing to work the shift signs the AWR Worksheet, they assume full responsibility for that shift and if for any reason the employee is unable to work the shift, it is their responsibility to find someone qualified to work in their place.
- This is the only time a three-way trade will be approved and is **only** permitted in extreme circumstances, such as illness or emergency.
- (7) If the employee who is to provide relief is on unpaid leave or is no longer employed by the Department, responsibility for the shift returns to the person who requested the AWR and the employee's chain of command must be notified in such a situation.

- (9) It is the employee's responsibility to ensure **all** shift trades are paid back within 28 calendar days of the initial shift being traded.
- This exchange is between the two (2) employees who have signed the AWR Worksheet and all exchanges must be mutually settled by the involved employees.
 - Supervisors will not be responsible for assigning the exchange date.
 - Employees are not permitted to pay the relieving employee instead of working the traded shift.
- (10) If an employee working an eight (8)-hour shift exchanges an AWR with an employee working a 10-hour shift, the exchange will only involve eight (8) hours.
- The employee normally working 10 hours will submit a two (2) -hour leave slip (vacation, personal leave, or compensatory time) for the day they are off.
 - The eight (8)-hour employee will not work the extra two (2) hours unless they are held over at the direction of a Department supervisor, at which time hold-over overtime would apply.
- (11) Employees participating in the AWR program must be assigned to the same precinct, bureau or unit, and have same job classification/rank.
- (12) Partial Shift AWR
- Partial shift AWRs are subject to the same guidelines as a full eight (8)- or 10-hour shift AWR, **without** exception.

N. Supervisor Responsibilities

(2) Notification Phase	<ul style="list-style-type: none"> • Informs the employee's chain of command that the employee has received an alert and the information in the alert would be beneficial for the employee's chain of command to review • The Notification phase will be performed by the EIIP coordinator only after the Identification phase has been completed. • The EIIP coordinator will route the alert through BlueTeam to the employee's supervisor, copying the chain of command up to the bureau/precinct commander/administrator. <ul style="list-style-type: none"> * Summaries of each incident pertaining to the alert will be included in the BlueTeam routing.

5. DISCIPLINE PROCESS OVERVIEW - INVESTIGATING SUPERVISOR'S RESPONSIBILITY

A. Process	<ul style="list-style-type: none">• Establish the identity of a minor policy violation, written reprimand violation, or an allegation of a Class I, Class II, or Class III violation• If the alleged violation is considered a Class I, Class II, or Class III violation as defined in Addendum A of this order, immediately contact the Professional Standards Bureau (PSB) to commence an internal investigation.• Research employee's prior discipline (if applicable) and work history:<ul style="list-style-type: none">* See the Progressive Discipline Table in section 4 of this order• Complete the Incident Review Control (IRC) Form 80-58DD• Prepare final recommendation• Submit to commander/administrator for review and recommendation• Prepare final documentation on appropriate form
-------------------	---

6. DISCIPLINE OVERVIEW

A. If a supervisory-initiated investigation or citizen complaint investigation has been completed and an allegation of misconduct is sustained, supervisors will refer to Operations Order 3.18, Addendum A, to determine proper recommendations for discipline.

- (1) Repeated sustained policy violations may be referred to the DRB if lesser means of discipline have not improved performance or corrected the behavior.
- (2) For employees responsible for Performance Achievement Plans (PAPs), the Police Chief is the final authority on determining discipline.
- (3) Depending on the seriousness of the sustained violation of policy or the continued repeat violations of policy, in consultation with the Police Chief, a Loudermill Hearing may be recommended.
- (4) The most serious violation among the sustained violations will be designated the primary violation.
- (5) Other sustained violation/s will be considered aggravating circumstances.

B. Placement Recommendations Based on Addendum A of this Order

- (1) When the investigation process is complete [investigation is presented to the employee to prepare for the Investigative Review Process (IRP)], the investigating supervisor will research the employee's discipline history within the following time restrictions calculated from the date that the employee received the discipline.
 - If the investigation is conducted by PSB, the chain of command will complete the work history (see Operations Order 3.19 for information regarding work history).
- (2) Coaching/supervisor initiated training/discipline outside the time restrictions will not be considered, see the table below for time restrictions:

(a) Supervisory Counseling	• One (1) year
(b) Written Reprimand	• Three (3) years
(c) All Suspensions	• Five (5) years
(d) Demotion	• Five (5) years

DISCIPLINE POLICY AND REVIEW BOARDS	Operations Order 3.18
PHOENIX POLICE DEPARTMENT	Rev. 03/17 PAGE 6

6. B. (3) The investigator will use the most serious of the current sustained violation/s as the primary violation within Addendum A of this order, with additional sustained violation/s listed.

7. PROCESS TO RECOMMEND DISCIPLINE OR NON-DISCIPLINE COACHING/SUPERVISOR INITIATED TRAINING

A. Minor policy violations may be treated as non-disciplinary performance issues.

(1) In addition to coaching, supervisors may recommend remedial training as part of the non-disciplinary process.

(2) Supervisors will document the coaching/supervisor initiated training within their supervisor notes and will provide a monthly copy to the employee for review and signature.

B. Employees who are found to have multiple minor policy violations and have received coaching/supervisor initiated training within the same performance evaluation year, may be subject to a supervisory counseling or written reprimand.

- The employees' chain of command will take into consideration both aggravating and mitigating factors prior to the issuance of a written reprimand.

C. Employees who are found to have sustained Class I, Class II, or Class III violations will be referred to the Police Chief or DRB as outlined within Addendum A of this order.

D. Mitigating and Aggravating Factors

- During the DRB review process, mitigating and aggravating factors will be considered.

E. Chain of Command Final Recommendations - After the internal investigation and prior discipline or non-disciplinary history processes are completed, and it is determined discipline is appropriate, the employee's chain of command will determine the course of action (see the Progressive Discipline Table in Addendum A of this order for more information).

(1) If **extreme mitigating or aggravating factors exist** relative to the policy violation and/or the employee has a prior Class I or Class II violation, the commander/administrator may request to deviate from the standard recommended level of disciplinary action in Addendum A of this order upon approval of the Police Chief.

(a) A memorandum will be written and forwarded through the chain of command to the Police Chief.

(b) The affected employee will be provided a copy of the memorandum.

(c) The Police Chief may request the commander/administrator and/or the employee (with association representation if desired by the employee) attend a meeting to discuss the deviation request.

(2) When an employee's sustained violation of policy is considered to be a Class III violation or a repeat of any Class I or Class II violation and the employee has received a suspension within the last five (5) years, the employee's chain of command may recommend to the Police Chief that a Loudermill Hearing be scheduled.

(a) If the option is a Loudermill Hearing, the involved employee will be given notice at least five (5) working days prior to the hearing and will be provided with a copy of all supporting documentation.

- Employees should be advised to contact the City Human Resources Department in order to make arrangements for benefits.

NOTE: If a Loudermill Hearing is conducted, an IRP will not be conducted.

F. Consideration by the DRB

- (1) Investigations with sustained violations which meet the criteria for a suspension, demotion, or termination will be forwarded through the employee's division chain of command to the DRB.

EXCEPTION:

- (a) A DRB is not required for a probationary employee who does not possess Civil Service appeal rights or an employee in a non-classified position, exceptions may be granted by the Police Chief or designee.
 - (b) Based upon a recommendation and approval of the Police Chief, a Loudermill Hearing will be conducted by the Police Chief or designee in lieu of a DRB in cases where the conduct of the employee is egregious in nature, or based on job performance.
- (2) Based upon the employee's chain of command's recommended level of discipline shown within Addendum A of this order, the DRB will consider a 40, 80, or 240 hour suspension and/or demotion, or termination.
- If articulable facts that may mitigate the discipline have been presented to the DRB by the employee or the employee's representative, the DRB chairperson may make a recommendation to the Police Chief outside the level action requirements (suspension range)
- (3) During the DRB executive session, board members will weigh mitigating and aggravating factors to determine the final discipline.
- (4) The employee's commander/administrator may address the DRB and make a recommendation to the board for a level of discipline.
- (5) The chairperson of the DRB will make a recommendation to the Police Chief.
- (6) Once an employee receives discipline for an allegation, they will not receive any additional discipline for the same specific allegation and/or incident of misconduct.
- (7) The Police Chief is the final authority on discipline.

G. Serving a Suspension - Suspension time should begin within 30 days of the date of discipline as determined by the supervisor/operational need.

12. B. (6) The committee's recommendation for corrective action may consist of one or more of the following:

- Training needs
- Disciplinary/corrective action

NOTE: A supervisory counseling is the minimum corrective action for any out of policy traffic collision unless the option in section 12.B.(10) of this order is allowed.

- In the case of traffic collisions, the issuance of an Arizona Traffic Ticket and Complaint/s (ATTC) is an additional option.
- No corrective action is necessary

(7) Factors for Consideration by the DAC

(a) Mitigating Factors - Employee was involved in direct law enforcement activity which required prompt action, for example:

- During a pursuit
- Response to a call that justifies a rapid response
- An on-view situation requiring immediate action
- Conducting an investigation/surveillance that involves an immediate level of urgency that justifies deviating from driving regulations.

NOTE: Mitigating factors require no serious or flagrant violation of law or Departmental policy.

(b) Non-Mitigating Factors - Employee was not directly involved in law enforcement related activity, for example:

- Driving to or from court
- Driving to or from meal break
- Routine patrol (not enforcement related)
- Routine investigative follow up

(8) The DAC's Recommendation to Issue an ATTC

(a) Employees involved in a traffic collision who have committed a violation that caused the collision (absent mitigating circumstances) should normally be cited for the violation.

(b) The committee may determine mitigating circumstances do exist and the issuance of an ATTC is not appropriate.

(c) The employee's bureau/precinct commander/administrator will direct a supervisor within the bureau/precinct to issue an ATTC to the employee after a review and endorsement to issue the citation is given.

- If that is not possible, the commander/administrator may request the citation be issued by VHU.

(d) If the employee's precinct/bureau commander/administrator disagrees with the DAC recommendation, the matter will be reviewed by the employee's assistant chief.

(e) If the employee's assistant chief agrees with the DAC's recommendation, the matter will be referred back to the precinct/bureau commander/administrator for appropriate disposition in accordance with the DAC's findings/recommendations.

DISCIPLINE POLICY AND REVIEW BOARDS	Operations Order 3.18
PHOENIX POLICE DEPARTMENT	Rev. 10/18 PAGE 15

12. B. (8) (f) If the employee's assistant chief also disagrees with the DAC's recommendation, the matter, along with new information, will be referred back to the DAC.
- The DAC will further review the matter and submit their decision to change, modify, or retain the original recommendation back to the employee's bureau/precinct commander/administrator for appropriate disposition in accordance with the DAC's findings.
- (g) If the employee's bureau/precinct commander/administrator still disagrees with the DAC's recommendation following the second review process, the matter will again be reviewed by the employee's assistant chief.
- (h) If the employee's assistant chief agrees with the DAC's second review recommendation, the matter will be referred back to the bureau/precinct commander/administrator for appropriate disposition in accordance with the DAC's findings/recommendation.
- (i) If the employee's assistant chief also disagrees with the DAC's second review recommendation, the matter will be referred to the Police Chief.
- The Police Chief will review the matter and render a finding that will be final.
 - The matter will then be forwarded back to the employee's bureau/precinct commander/administrator for appropriate disposition in accordance with the Police Chief's decision.

Department personnel are also expected to comply with the City's rules and Administrative Regulations (AR) related to the use of social media.

6. D. Location of Code 7

- (1) Patrol officers will not leave their squad area for a Code 7 or a 10-40, unless adequate eating facilities are unavailable, without the authorization of their supervisor.
 - Supervisors may authorize officers to cross adjacent squad or precinct boundaries if adequate eating facilities are not available, however, consideration should be given to the adjacent squad/precinct officers when allowing officers to cross boundaries.
- (2) A meal period may be taken at a private residence with supervisor approval provided the residence is in the officer's squad area.
- (3) Supervisors should ensure there is adequate coverage of the squad area when units are out of service for a meal period.

E. General Guidelines

- (1) Each 8 or 10 hour shift worked will include a meal period of 30 minutes.
- (2) Work hours also include two 15-minute breaks (10-40), when work demands allow; one during the first half of the shift and one during the second half of the shift.
- (3) When work demands permit, and with a supervisor's approval, officers may combine the 30 minute meal period with one of their 15 minute breaks to achieve a 45 minute meal period.
- (4) Break time is calculated as the total time the officer is away from work, not just the time spent at the specific place where food or beverage is consumed.
- (5) Police assistants, police aides, and commercial vehicle inspectors will adhere to the same policy as officers.

F. Missed Meal Breaks

- (1) Meal breaks will be taken as follows:

4/10	• Within the first eight hours of the work day
5/8	• Within the first six hours of the work day

- (2) If the guidelines listed in the table above are not possible, officers will notify their supervisor.
 - Supervisors will make every effort to ensure the officer receives a meal break.
- (4) Increased calls for service during shift change make it necessary that Code 7s are not granted during the employee's last work hour without a supervisor's approval.
- (5) When officers are on an assignment that requires constant manning, such as traffic control or securing a crime scene, they will notify their supervisor, who will make every effort to ensure they receive a meal break when operationally possible.
- (6) Meal Breaks During Overtime
 - (a) After four consecutive hours of overtime, an officer is entitled to a paid meal break of one half-hour.
 - (b) Officers are entitled to one meal break for every eight consecutive hours of overtime.

7. UNIT REMOTE LOG

- A. The Unit Remote Log (URL) maintained in the software of the MDC is an official Department record.
- B. Employees will enter accurate information into the URL.
- C. The URL is necessary for placing an employee at a certain location at a certain time as an official record of the duties performed and actions taken by each employee each day.
- D. Employees will log all activities into the URL.
 - (1) Occasions when employees are dispatched or otherwise assigned to investigate calls for service will be automatically included in the URL.
 - (2) All traffic and subject stops will be entered as radio calls.
 - (3) Subjects and vehicles related to a radio call will be added as "Entities" to the radio call, or noted in "Add Remarks" prior to sending disposition for the call.
 - (4) "Busy" codes will be used to accurately reflect status for administrative details such as meal breaks or report writing.
 - (5) Locations will be listed as a street address whenever possible rather than general locations such as "fairgrounds at Central Ave./McDowell Rd."
 - (6) Contacts not related to radio calls will include the following information in the URL:
 - Name
 - Date of birth
 - Gender
 - Race
 - License plate number (if applicable)
 - Reason for the contact

8. ROUTING PROCEDURES

- Paperwork routed to the Information Desk:

Corrections Memorandum	Ticket Book Citations (ATTCs and NOVs)
Court Continuance Request 80-87D	Ticket Book Covers

 - **Prior** to using any City off-road vehicle (side-by-side, all-terrain vehicle (ATV), etc.), four-wheel drive truck or sport utility vehicle (SUV), and/or trailer, employees will complete Department familiarization training on the use of the vehicle/trailer (contact the Tactical Driving Detail at 602-256-4210 for training information).
 - * Supervisors will ensure employees have completed the required Department familiarization training prior to authorizing the use of the above listed Department vehicles/trailers.
- E. Employees will use seat belts in all vehicles so equipped and will require all non-custodial passengers to do the same (refer to Operations Order 7.2, Transporting Prisoners, for prisoner seat belting requirements).
- F. Employees will not utilize electronic devices in vehicles while driving unless it is necessary to perform a police function.
 - Employees must exercise due regard for the safety of themselves and others in these situations.
- G. Employees will not drive off roadways unless absolutely necessary to perform a police function.
 - Employees will enter off-road areas on foot, whenever practical.

 - This may not apply to detectives or undercover officers who have been given authorization from their supervisor.
- I. Proper vehicle maintenance is the responsibility of all employees.
- J. **Energy Conservation** - In order to conserve energy, employees will comply with these guidelines, whenever possible:
 - Drive at reduced speeds
 - Avoid fast starts and quick stops
 - Use vehicles manufactured or modified to run on alternative fuels, such as compressed natural gas (CNG), flex fuel, hybrid, or electric when applicable
 - Limit prolonged engine idling
 - Combine trips
 - Carpool

NOTE: Employees will not let the engine idle in an **unoccupied** City owned, rented, leased, or seized vehicle unless absolutely necessary to perform a police function.
- K. In order to allow consistent handling of vehicles, equipment coordinators will adhere to the Police Equipment Manager's guide provided and updated by the police fleet manager (PFM) with input from equipment coordinators and administrative personnel.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 02/20 PAGE 2

1. L. The PFM will oversee the administration of all fleet issues including the implementation of management directives in reference to vehicle matters.
 - The PFM is authorized to manage the fleet as deemed necessary to realize the most efficient and cost-effective fleet operation, which may include vehicle rotation.
 - All bureaus/precincts will establish a liaison for fleet matters, such as, an equipment coordinator, who will report to the PFM regarding fleet management and effect any necessary changes as directed by the PFM.
 - All bureaus/precincts will establish a system to best assign vehicles including vehicles available for use by all bureau/precinct personnel.
 - The vetting, selection, and monthly review of vehicles will be the responsibility of the specific bureau/precinct/unit and its liaison: for example, Traffic Unit and motorcycles, Air Unit and aircraft, and Special Assignments Unit (SAU) and armored vehicles.
- M. A fully visible "Out of Service" cover will be placed over the red and blue emergency lights when a civilian employee other than a Downtown Operations Unit (DOU) police assistant (parking enforcement), is driving a marked patrol vehicle.

NOTE: Civilian employees, including DOU police assistants, are not allowed to drive under the provisions of the following sections of this policy:

- Section 2 - Emergency Response Driving
- Section 3 - Traffic Enforcement Driving
- Section 4 - Establishing Unlawful Flight
- Section 5 - Pursuit Guidelines and Driving Procedures

2. **EMERGENCY RESPONSE DRIVING**

A. Definitions

- (1) **Emergency Response Driving** - The operation of an authorized emergency vehicle with mandatory use of lights and siren by a law enforcement officer in response to a life-threatening situation or a violent crime in progress at a speed above the posted speed limit and/or in disregard of traffic control devices governing the movement of motor vehicles.
- (2) **Authorized Emergency Vehicle** - A police vehicle equipped with identifying decals, and a fully operational red and blue light bar (except motorcycles), and siren.

B. The decision to drive under emergency conditions will be discretionary with each sworn employee.

- Sworn employees will have sufficient information to justify the decision to drive or continue to drive under emergency conditions and will continuously evaluate the safety of doing so.
- Safe arrival will always have priority over speed and unsafe maneuvers enroute to an emergency.
- Sworn employees responding to an urgent 907, 906, 998, and 999 will keep in mind emergency response driving may be terminated at the discretion of any sworn supervisor.

C. The following three conditions must simultaneously exist for sworn employees to exercise emergency response driving privileges as set forth in [ARS 28-624, Authorized Emergency Vehicles](#):

- The vehicle driven must be an authorized emergency vehicle.
- The unit must be responding to a life-threatening situation or violent crime in progress.
- A siren must be sounded and emergency red and blue lights activated.

D. When sworn employees engage in emergency response driving, they may:

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 02/20 PAGE 3

2. D. (1) Park or stand, irrespective of the provisions of Title 28.
- (2) Proceed past a red light, stop signal, or stop sign only after coming to a complete stop, and all traffic has yielded the right-of-way or stopped in response to the emergency vehicle.
- (3) The maximum speed allowed will be 15 mph when sworn employees travel in center or oncoming traffic lanes.
- (4) When sworn employees use center or oncoming traffic lanes to approach controlled intersections (traffic lights, stop signs, etc.), they will come to a complete stop before entering the intersection, even with a green light.
- (5) Sworn employees will not exceed the posted speed limit when approaching a controlled intersection.

E. Speed Limit and Vehicle Movement

- (1) The speed limit may be exceeded only under favorable conditions:
- Light to moderate traffic
 - Good roads
 - Good visibility
 - Dry pavement
- (2) A maximum of 15 mph above the speed limit is authorized on surface streets.
- (3) Excessive speeds as defined by [ARS 28-701.02, Excessive Speeds](#), will be the maximum allowed on the freeway.
- (4) The posted speed limit is the maximum speed allowed under less-than-favorable conditions.
- (5) Sworn employees may disregard regulations governing the direction of movement, only after stopping or slowing as necessary for safe operation.
- (6) Sworn employees may pass on the right when necessary and only when passing on the left is not possible.
- The maximum speed will be 20 mph when passing on the right.
- (7) When initiating or continuing to drive under emergency conditions, sworn employees will consider:
- Traffic volume
 - Time of day
 - Type of crime in progress
 - Distance from event or incident
 - Potential hazards to employees and the public

F. Use of Emergency Lights and Sirens

- (1) When operating authorized emergency vehicles under emergency response driving conditions, sworn employees will use emergency lights and the siren.
- (a) To avoid alerting suspects, employees may choose to deactivate the siren when approaching the emergency call location.
- (b) However, the use of emergency lights alone is not emergency response driving and requires the observance of all speed limits and traffic control devices.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 4

2. F. (2) Sworn employees will take necessary steps to assist the Communications Bureau in understanding their transmissions, such as closing windows and turning up radio volume while operating the siren.

3. **TRAFFIC ENFORCEMENT DRIVING**

- A. Definition - Driving that involves the apprehension of traffic violators.
- B. Sworn patrol/motor employees are expected to make reasonable efforts to apprehend traffic violators.
 - Traffic enforcement driving will not put the employee or the public at undue risk.
- C. Sworn patrol/motor employees will weigh the necessity to apprehend the traffic violator against the level of risk presented to the employee and the public.
- D. Sworn patrol/motor employees may disregard regulations governing traffic movement, as listed in ARS 28-624, only when it can be done safely.
 - (1) Sworn patrol/motor employees will not normally exceed 15 mph over the posted speed limit to apprehend traffic violators.
 - (2) Sworn patrol/motor employees may exceed the 15 mph restriction only to enforce serious moving violations that create an immediate danger to the public, such as excessive speed, aggressive driving, reckless driving, or DUI.
 - The level of risk to the employee and the public, as well as the need to pursue the violator, must be considered.
 - (3) Sworn patrol/motor employees will not follow or pace the speed of traffic violators for extended distances; if a traffic violator refuses to stop after a reasonable distance, employees will discontinue following and return to service.
 - If the elements of unlawful flight exist (see section 4 below), the Air Support Unit (if available) should be requested to provide active observation on the vehicle (see section 5.F of this order for more information).

4. **ESTABLISHING UNLAWFUL FLIGHT**

- A. [ARS 28-622.01, Unlawful Flight from Pursuing Law Enforcement Vehicle](#) - A driver of a motor vehicle who willfully flees or attempts to elude a pursuing official law enforcement vehicle that is being operated in the manner described in [ARS 28-624, subsection C](#) is guilty of a class 5 felony.
 - (1) Sworn personnel must adhere to [ARS 28-624, subsection C](#) when attempting to stop the suspect vehicle by the use of an authorized emergency vehicle operating emergency lights and the siren.
 - (2) If the operator of the suspect vehicle becomes aware of the attempt by an authorized emergency vehicle and willfully flees or attempts to elude the authorized emergency vehicle, the elements of Unlawful Flight are established.
 - (3) Sworn employees who decide to continue following the suspect vehicle and do not terminate emergency driving after the elements of the unlawful flight have been established must state "IN PURSUIT" and follow the provisions as outlined in section 5 of this order.

NOTE:

- Pursuits will not be initiated for traffic violations, stolen vehicles, misdemeanors, and non-violent felonies.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 5

4. A. (3) **NOTE:** (Continued)

- A pursuit packet will be completed by the supervisor of the unit that initiated the pursuit.
 - * If the unit decides to not follow the vehicle (does not go into pursuit), a pursuit packet is generally not required (see the section 6 of this order for more information).

5. **PURSUIT GUIDELINES AND DRIVING PROCEDURES**

A. Guidelines

- (1) A primary responsibility of police service and the individual sworn employee is the protection of life and property; per Department policy, vehicle pursuits will not be initiated and/or will be terminated when the pursuit presents a greater risk to life and property than the immediate apprehension of the individual/s being pursued.
- (2) All sworn employees will refrain from initiating and continuing pursuits when the action of the fleeing vehicle exhibits reckless disregard for public safety, regardless of the offense (which may include violent felonies).
 - Sworn employees **will** weigh the necessity to apprehend the suspect, such as the need to take into immediate custody, against the level of risk presented to the employee and the public when deciding to initiate or continue a pursuit.
- (3) Pursuits **will not be initiated** for traffic violations, stolen vehicles, misdemeanors, and non-violent felonies.
- (4) At **all times** during the pursuit, the involved units will evaluate whether the risk created by the pursuit outweighs the necessity for immediate apprehension.

(5) Preventing Pursuits

- With a supervisor's authorization, sworn employees may box in a **stationary** vehicle or utilize tire deflating devices to prevent the vehicle from becoming mobile.
 - * Once a vehicle goes mobile, it may **NOT** be boxed in at any time (stopped for traffic signals, school zones, on private property, etc.).

EXCEPTION: Does not apply to the use of a street jump by authorized employees as outlined in Operations Order 9.7, Tactical Events Response Plan.

- * Tire deflation devices **will not** be deployed on moving vehicles that do not meet the criteria for pursuing.

EXCEPTION: Tire deflation devices may be authorized by a TSB supervisor during the course of a tactical surveillance.

B. Definitions:

(1) Pursuit Driving	Any attempt by a law enforcement officer operating an authorized emergency vehicle to apprehend occupant/s of a moving vehicle when the driver is aware of that attempt and is resisting apprehension by using high speed driving or other evasive actions to intentionally disregard the law enforcement officer's command to stop.
(2) Use of a Pursuit	A pursuit is a tactic/tool which may be used to apprehend a subject whom the sworn employee has reasonable suspicion to believe has committed, is committing, or attempted to commit an offense involving the infliction or threat of serious physical injury or death or is likely to endanger human life or cause serious injury to another unless apprehended without delay.

PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 6

5. B. Definitions: (Continued)

(3) Pursuit Conclusion	A pursuit is concluded in one of two ways: <ul style="list-style-type: none"> • Suspect/s and/or vehicles are in custody, and/or suspect/s bail out, suspect vehicle has ceased movement, accident, etc. • Termination - All units, including the Air Support Unit, are available for radio traffic and not involved in the pursuit of the suspect/s and/or vehicle/s in any way.
-------------------------------	---

C. Pursuit Restrictions:

(1) Marked Emergency Units	<ul style="list-style-type: none"> • No more than <u>three</u> marked units will be involved in the immediate pursuit without a supervisor's approval. • Other police units will be support vehicles and will not become actively involved in the pursuit. • When practical, all marked units will wait for the arrival of the Air Support Unit prior to initiating a traffic stop on vehicles suspected in a criminal offense.
(2) Marked Units with Civilian Occupants	<ul style="list-style-type: none"> • These units will not participate in pursuits as primary, secondary, or support units when their unit is occupied by a prisoner, suspect, complainant, witness, civilian observer, or any other person not on duty as a police officer (this does not include police recruits).
(3) Motorcycles, Transport Wagons, and Sport Utility Vehicles	<ul style="list-style-type: none"> • These units may become involved as the primary unit only when they initiate the pursuit. • They will relinquish the pursuit to a marked police vehicle occupied only by sworn personnel as soon as practical <p>NOTE: Sport utility vehicles that are police pursuit rated such as the marked Chevrolet Tahoe patrol vehicles; do not fall under this restriction.</p>
(4) Unmarked Units without Identifying Decals, Lights, and Sirens, and Plain-Clothed Officers	<ul style="list-style-type: none"> • These units <u>will not</u> at any time become involved in a pursuit in a primary or secondary unit capacity. • Only with supervisor approval may employees deploy tire deflating devices and assist with traffic control. • Unmarked units must at all times adhere to all Title 28 provisions.
(5) Uniformed Sworn Employees	<ul style="list-style-type: none"> • Uniformed sworn employees are authorized at all times to direct traffic and/or deploy tire deflation devices during pursuits, as directed by the monitoring supervisor.
(6) Prohibited Actions	<p><u>Sworn employees will not:</u></p> <ul style="list-style-type: none"> • Pursue suspects while they are traveling the wrong way on any freeway, freeway frontage road, divided highway, or one-way street. • Overtake, drive next to, or force suspect vehicles off the roadway. • Ram a suspect vehicle. • Block the roadway. • Box in or surround a <u>moving</u> vehicle. • Deploy tire deflation devices on moving vehicles not meeting pursuit criteria. • Continue at speeds above excessive speeds as defined in ARS 28-701.02 after the suspect has demonstrated non-compliance with an attempted traffic stop. <p>* Excessive speeds are defined as:</p> <ul style="list-style-type: none"> o Exceed thirty-five miles per hour approaching a school crossing o Exceed the posted speed limit in a business or residential district by more than twenty miles per hour, or if no speed limit is posted, exceed forty-five miles per hour o Exceed eighty-five miles per hour in other locations <p>NOTE: Sworn supervisors may authorize the deviation from these prohibited actions if the failure to apprehend the suspect may result in immediate danger to life.</p>

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 7

5. C. Pursuit Restrictions: (Continued)

(7) Exceptions	<ul style="list-style-type: none"> • Airport Bureau personnel may deviate from the listed restrictions when the event: <ul style="list-style-type: none"> * Enters onto any restricted air operations area (AOA). * Enters or occurs on Airport property (landside operations area) <u>and</u> the offense involves the infliction or threat of serious injury or death or is likely to endanger human life or cause serious injury to another <u>and</u> the event is actively managed by an Airport Bureau supervisor. • Tactical Support Bureau (TSB) personnel may deviate from the listed restrictions when the event is actively managed by a TSB supervisor. • The actions taken by Airport Bureau and TSB personnel must be consistent with current training and reasonable under the totality of the circumstances.
-----------------------	--

D. Guidelines for Terminating Pursuits

(1) Sworn personnel will consider terminating a pursuit when:

- Environmental factors such as rain, fog, or darkness substantially increase the danger of the pursuit.
- The employee is unfamiliar with the area and is unable to accurately notify the Communications operator of the location and direction of travel.
- Road conditions are congested by traffic or pedestrians.
- The fleeing suspect does not pose any additional danger to the safety of the employee and the public other than the flight itself.
- The pursuit occurs during rush hour, in the area of a school, and/or other area congested by pedestrian or vehicular traffic.
- There is a greater risk to life and property than the immediate apprehension of the individual/s being pursued.
 - * A greater risk to life and property exists when speed dangerously exceeds the normal flow of traffic, when vehicular or pedestrian traffic necessitates erratic maneuvering that exceeds the performance capabilities of the vehicle or the driver, or the driver recklessly disregards traffic control devices, drives in opposing lanes of traffic, or does not have lights on during hours of darkness.

(2) Pursuits will be immediately terminated under the below conditions:

- (a) A sworn supervisor orders the pursuit terminated.
 - Supervisors who wish to terminate a pursuit will issue an order to terminate and return to service.
 - **All** ground units will immediately deactivate their emergency lights and siren.
 - If applicable, the Air Support Unit will only continue to follow the suspect vehicle in an active observation mode or tactical support surveillance if supervisory permission has been granted to do so.
- (b) The suspect is known to the employee and does not pose an immediate threat to the public.
- (c) The distance between the employee and the suspect is so great that excessive speeds as defined in [ARS 28-701.02](#), are required by the employee to catch up, placing the employee/s, the public, and the suspect in serious danger.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 8

5. D. (2) (d) The employee loses visual contact with the suspect for an extended period of time (approximately 15 seconds).
- This does not imply that employees must cease looking for the suspect; however, employees must slow to the posted speed limit if they lose visual contact with the suspect.
- (e) If equipment failure involving the police vehicle/s emergency lights, siren, radio, brakes, steering, or other essential mechanical equipment occurs.
- (f) The employee's speed becomes excessive as defined in ARS 28-701.02.

EXCEPTION: Sworn supervisors may authorize the continuation of excessive speeds if the failure to apprehend the suspect may result in immediate danger to life.

E. Marked Ground Unit Pursuit Procedures

- (1) **Primary Marked Ground Unit** - The first marked unit to become involved in a vehicular pursuit will be designated the primary unit and will:
- (a) State they are "IN PURSUIT", immediately activate the vehicle's emergency lights and siren, and immediately notify and update the Communications operator regarding the following:
- Unit identifier
 - Location, direction of travel, and speed of vehicle (for the duration of the pursuit)
 - Offense for which suspect is wanted
 - Description of vehicle being pursued
 - Number of occupants and their descriptions
 - Request an air unit
 - Any hazards to employees
 - Vehicle and pedestrian traffic conditions (for the duration of the pursuit)
 - Traffic infraction/s committed by the suspect (for the duration of the pursuit)
- (b) **Additional Radio Procedures:**
- Close windows and turn up the radio volume while operating the siren.
 - Continue radio transmissions during the pursuit until relieved of this duty by the secondary unit.
 - * When relieved of broadcasting by the secondary unit, the primary unit should only broadcast critical information.
 - * The primary unit will resume radio transmissions if the secondary unit discontinues the pursuit for any reason.
- (2) **Secondary Marked Ground Unit** - The second marked unit in a pursuit will become the secondary unit and will:
- Operate the vehicle with emergency lights and siren at all times during the pursuit.
 - Advise the Communications operator the unit is participating in the pursuit as a secondary unit.
 - Follow the primary unit at a safe distance.
 - Assume the primary position when the primary unit discontinues the pursuit, unless unsafe conditions exist or the pursuit has been terminated.
 - Assume radio transmissions from the primary unit, to include the information in section 5.E.(1) above.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 9

5. E. (3) Supporting Marked Patrol Ground Units - Will be support only and will not become directly involved in the pursuit without sworn supervisory approval; responsibilities include:

- Covering escape routes while attempting to remain out of suspect's view
- Assuming a primary or a secondary role if needed
- Paralleling the pursuit
- Assuming bulls-eye positions
- Adhering to all traffic control devices and regular speed provisions
- Activating emergency lights and the siren only to warn uninvolved citizens of the impending pursuit
- Observing suspect vehicle for identification purposes, when feasible
- The support units **will not** attempt to intervene even if they inadvertently intercept the suspect vehicle.

(4) Tactics That May Be Deployed:

- Tire deflation devices
- Bulls-eye techniques
- Paralleling
- Traffic control
- Active observation mode - Provided by the Air Support Unit
- Tactical support surveillance - Provided by ground units from TSB and the Air Support Unit

F. Tactical Support Bureau (TSB)/Air Support Unit – TSB/Air Support Unit provides two means of support in pursuit/possible pursuit situations and non-violent incidents; the active observation mode and tactical support surveillance.

(1) Active Observation Mode	<p><u>Involves both the Air Support Unit and patrol units in the below situations:</u></p> <ul style="list-style-type: none"> • When pursuit driving is permitted by policy • When authorized by a duty lieutenant for non-pursuit situations/non-violent incidents (stolen vehicles, residential/commercial burglaries, strong armed robberies, etc.) <p><u>Air Support Unit:</u></p> <ul style="list-style-type: none"> • When directed by a sworn supervisor, the active observation mode will be used. • When the Air Support Unit advises the suspect vehicle is in view, <u>all units</u> will turn off their emergency lights/siren, make every effort to move to a position where they can no longer be seen by the suspect, slow to the posted speed limit, and allow the Air Support Unit to call the pursuit while following out of the suspect's sight. • Will notify ground units when it is safe to attempt apprehension of the suspect. <p><u>Patrol Units</u> - In non-pursuit/non-violent incidents, patrol units will only consider the below listed options when authorized by a duty lieutenant.</p> <ul style="list-style-type: none"> • Will not have emergency lights and the siren activated; however, they may employ emergency driving procedures when necessary for traffic control and/or any other safety reasons • Additional tactics deployed during this phase may include: <ul style="list-style-type: none"> * Tire deflation devices * Bull's-eye techniques (out of suspect view) * Paralleling * Traffic control • All activities conducted will be documented for reporting purposes.
------------------------------------	--

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 10

5. F. (Continued)

(2) Tactical Support Surveillance	<ul style="list-style-type: none"> • Pursuits may be turned over to TSB when available for surveillance and when requested by on-scene supervisors for the below situations: <ul style="list-style-type: none"> * When a pursuit of a violator is not authorized by policy * When the continuance of an authorized pursuit becomes too dangerous for employees and the public * When a pursuit crosses precinct boundaries * Incidents where there is reasonable likelihood of flight * In any event where a violator is unaware of police presence and use of this technique will enhance officer and public safety over the use of a traditional stop • Involves the Air Support Unit and ground units from TSB to operate within the guidelines of their bureau manual • A supervisor from TSB must assume command. <ul style="list-style-type: none"> * Radio traffic will be directed to a separate frequency by a TSB supervisor. * The initiating unit/s will be directed by a TSB supervisor to assist as needed. * Tire deflation devices may be authorized by a TSB supervisor during the course of a tactical surveillance. • All other patrol participation will end and precinct traffic will resume.
--	--

(3) Once the Air Support Unit arrives on the scene, they may:

- Assume radio transmissions.
- Advise ground units whether they are assuming an active observation mode or tactical support surveillance (as directed by the monitoring supervisor).
- Take reasonable steps to conceal their presence from the occupants of the fleeing vehicle.
- Direct ground units to stay out of sight of the suspect vehicle.
- Make further notifications when appropriate.
- Seek specific instructions from the ground supervisor.
- Provide the supervisor completing the pursuit investigations a supplement when requested.
- Assist ground units with establishing a perimeter, when needed.

G. Responding/Monitoring Supervisor Responsibilities

(1) The initial responding/monitoring supervisor will be responsible for the pursuit until its conclusion, to include:

- Determining the appropriate action during the pursuit, such as having the Air Support Unit assume the pursuit in an active observation mode, requesting tactical support surveillance, or making the decision to terminate.
- Evaluating and directing employees/resources as needed based on information advised by the unit/s involved in the pursuit.

(2) Additionally, the employee's supervisor or initial monitoring supervisor will:

- Order the termination of a pursuit if in the supervisor's judgment the level of danger outweighs the necessity of apprehension.
- Advise the Communications operator to notify the affected precincts and/or jurisdictions if a pursuit is terminated and the suspect continues to flee.
- Give the Air Support Unit specific instructions when needed.
- Ensure a complete and proper investigation of the incident occurs.
- Complete a pursuit packet (see section 6 of this order).

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 11

5. H. Pursuits Crossing Precinct Boundaries

- (1) When pursuits cross precinct boundaries, a duty lieutenant from the initiating precinct will assume command of the incident until the pursuit is terminated or turned over to TSB.
- (2) The initiating precinct duty lieutenant's responsibilities will include the following:
 - Continually assessing the need for the pursuit
 - Coordinating all available resources
 - Determining the number of units needed
 - Direct un-needed units to return back to their assigned area/s
- (3) Units involved in pursuits outside of their assigned precinct **will** immediately terminate their participation when directed by a sworn supervisor and return to service in their assigned precincts.

I. Communications Responsibilities

- (1) The Communications operator will:
 - Notify units of the pursuit on the appropriate frequencies.
 - Notify a patrol supervisor in the precinct where the pursuit is located.
 - Request assistance from the Air Support Unit when available.
 - Advise the patrol supervisor of the Air Support Unit's availability and estimated time of arrival.
 - Allow units to communicate car to car when necessary
- (2) The Communications operator will notify neighboring jurisdictions when the pursuit approaches its boundaries.

J. Other Jurisdictions Involved in a Pursuit

- (1) When other law enforcement agencies enter the City, sworn personnel will act as support units only.
- (2) If only one unit from an outside agency is involved and it is a marked emergency vehicle, one Phoenix unit may act as a secondary unit or take over as the primary unit in a pursuit with the permission of a sworn supervisor.
- (3) If the Phoenix unit does, in fact, become the primary or secondary unit, all applicable Department pursuit policies apply.
- (4) Sworn Phoenix employees acting as support units for an outside agency's pursuit will not continue their support function beyond the Phoenix City limits unless authorized to do so by a sworn supervisor.
- (5) Before entering another jurisdiction, sworn employees will ask radio to advise that jurisdiction of the pursuit for informational purposes and possible assistance.
- (6) With **authorization** of a Department sworn supervisor, sworn Phoenix employees **may** participate as primary, secondary, or support units when the outside agency unit is an unmarked vehicle and clearly indicates they want Phoenix personnel to assume the pursuit.

K. Tire Deflation Devices

- (1) The use of tire deflation devices are an effective way to conclude and/or avoid pursuits while minimizing danger to the public and the employees involved.

OPERATION OF DEPARTMENT VEHICLES	Operations Order 4.2
PHOENIX POLICE DEPARTMENT	Rev. 10/19 PAGE 12

5. K. (1) (Continued)

- Tire deflation devices may also be deployed during barricade/static situations as a method of disabling a vehicle.
- Tire deflation devices **will not** be deployed on moving vehicles that do not meet the criteria for pursuing.

EXCEPTION: Tire deflation devices may be authorized by a TSB supervisor during the course of a tactical surveillance.

(2) Sworn employees will ensure their tire deflation devices are serviceable and ready for use at the start of each shift.

(3) Approval for Deployment

(a) The use of tire deflation devices is one of many factors to be considered when determining whether to terminate or continue a vehicle pursuit.

- Deployment of tire deflation devices requires the approval of a sworn supervisor.
- Tire deflation devices will not be used on any of the freeways without sworn supervisor approval and coordination with the Department of Public Safety.

(b) This policy is not meant to supersede the decision by an involved sworn employee or supervisor to terminate a pursuit prior to use of tire deflation devices.

(c) Only sworn employees who have received Department-approved training in the use of tire deflation devices are authorized to deploy them.

(d) Deployment Guidelines:

- When possible, sworn employees involved in a pursuit will be advised that "spikes" are being deployed and the location where they will be used.
- Sworn employees involved in the pursuit should allow ample room between the suspect vehicle and their police vehicles to avoid damage to Department vehicles.
- Tire deflation devices will not be deployed when it is clear their use creates a danger to the public and/or employee that outweighs the benefit of its use.

(e) When other law enforcement agencies involved in a pursuit enter the City, the following will apply:

- Deployment of tire deflation devices will only be used when a Phoenix unit has taken over as the primary unit.
 - * This is necessary because of potential damage to police cars and the difficulty in communicating with outside agencies.

(4) Documentation

(a) The use of a Stop Stick brand tire deflation device will be documented in the Incident Report (IR), and the [Stop Stick Deployment Report](#) (completed online at stopstick.com) will also be completed.

(b) The deploying employee is responsible for completing the Stop Stick Deployment Report and will print a copy of the completed report which will be given to the bureau/precinct administrative sergeant for filing.

(c) A [Report of Property Damage/Injury Form 80-511D](#) will also be completed, along with photographs of the damage.

- Assigned to the Airport Bureau are authorized to employ this tactic to terminate a pursuit within airport grounds.
 - Working as dignitary protection may employ this tactic when needed as a part of their duties.
 - Assigned to TSB are authorized to employ this tactic when reasonable under the totality of the circumstances and when the event is actively managed by a TSB supervisor.

SEARCH AND SEIZURE

Operations Order

4.11

PHOENIX POLICE DEPARTMENT

Rev. 03/18

PAGE 1

1. OVERVIEW OF SEARCH AND SEIZURE

- A. Orders and regulations concerning the subject of search and seizure are difficult to set forth as hard and fast rules.
- B. The guidelines in this order address the basic rules of search and seizure; no attempt is made to address every conceivable search and seizure issue, because each situation involving search and seizure is different and must be judged on its own facts; the application of these guidelines must not be arbitrary.
- C. Officers will adhere to these guidelines as closely as possible, keeping in mind the variations inherent in search and seizure and that court decisions frequently change their application.
 - (1) The Legal Unit is available to provide assistance concerning legal interpretation of search and seizure rules and procedures.
 - (2) Under emergency conditions and after business hours, a Department legal advisor may be contacted with the permission of a supervisor.

D. Definitions

(1) Criminal Profiling	An investigative method in which police officers, through observation of activities and environment, identify suspicious people and develop legal grounds to stop them for questioning.
(2) Bias-Based Profiling	Stopping an individual based on a common trait of the group; this includes, but is not limited to race, color, religion/creed, sex/gender, ethnic or national origin, age, sexual orientation, gender identity or expression, disability, or economic status; this is commonly referred to as "racial profiling."
(3) Daytime	Any time between 6:31 a.m. and 9:59 p.m., inclusive.
(4) Frisk	Pat-down of person's exterior clothing to check for weapons.
(5) Nighttime	Any time between 10 p.m. and 6:30 a.m., inclusive.
(6) Open View	A circumstance where an officer sees an item that he/she has probable cause to believe is crime related (evidence) from a vantage point outside a constitutionally protected area (a place where a person has a reasonable expectation of privacy); a search warrant is required for a lawful search and seizure unless exigent circumstances exist; under the open view doctrine, a seizure is not automatically allowed, without more, such as exigent circumstances.
(7) Plain View	A circumstance when the officer is lawfully positioned to see object; the object's incriminating character is immediately apparent; and the officer has a lawful right of access to the object.
(8) Probable Cause to Arrest	Facts and circumstances, and any rational inferences therefore, that would lead a reasonable and prudent police officer to believe a crime has been or is being committed, and the subject to be arrested committed the crime; an officer may arrest based on probable cause.
(9) Probable Cause to Search	Facts and circumstances, and any rational inferences therefore, that would lead a reasonable and prudent police officer to believe a crime has been committed and evidence thereof will be found in the place to be searched.
(10) Protective Sweep	A quick and cursory search for persons posing an immediate danger to officers or others at the scene of an arrest. The sweep should occur at the time of the arrest or shortly thereafter.
(11) Racial Profiling	The reliance on race, skin color, and/or ethnicity as an indication of criminality, including reasonable suspicion or probable cause, except when part of a suspect description.
(12) Reasonable Expectation of Privacy	Two necessary elements: (1) the person must have an actual expectation of privacy (subjective), and (2) the expectation of privacy must be one that society recognizes as reasonable (objective).

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 2

1. D. Definitions: (Continued)

(13) Reasonable Suspicion	Facts and circumstances, and any rational inferences therefore, that would lead a reasonable and prudent police officer to believe crime is/was afoot (has been, is being, or is about to be committed); the officer need not know the exact nature of the crime; an officer may stop or detain a person based on reasonable suspicion but may not arrest or search.
(14) Search	An infringement upon a person's reasonable expectation of privacy; usually involves a physical intrusion for the purpose of seeking evidence.
(15) Search Warrant	An order in writing issued in the name of the state, signed by a magistrate, and directed to peace officers, commanding them to search for personal property, persons, or items described therein Arizona Revised Statute (ARS) 13-3911 .
(16) Seizure	A person has been seized if, under a totality of the circumstances, a reasonable person would believe that he/she was not free to go; property has been seized when there is some meaningful interference with an individual's/possessors interest in that property.
(17) Standing	A person has standing to object to a search or seizure if that person has a reasonable expectation of privacy in the place to be searched or item to be seized; some factors used to determine if a person has standing to object include whether the person owns, leases, controls, lawfully occupies, rightfully possesses, or has an interest in the premises or property.
(18) Stop	A temporary detention of a person for investigation (a temporary detention is considered a seizure of a person and is, therefore, governed by the Fourth Amendment); a stop occurs when a reasonable person under the circumstances would believe that he/she is not free to go; a stop must be based on at least reasonable suspicion; a person is stopped when such person submits to a show of authority or physical force.

2. **REASONABLE SEARCH AND SEIZURE**

- A. The Fourth Amendment to the United States Constitution, the Arizona Constitution (Article 2, Section 8), and court decisions interpreting the constitutional provisions and statutes protect all persons and their property against unreasonable search and seizure.
- B. The most common legal courses of action available to officers for conducting a reasonable search and seizure are listed below:
 - A valid search warrant
 - An arrest based on probable cause
 - A valid arrest warrant
 - Incidental to a lawful arrest
 - Exigent circumstances (probable cause exists, but no time to obtain a warrant)
 - Investigative detention/stop and frisk
 - Vehicle exception
 - Plain view
 - Consent
 - Protective sweep
 - Inventory
 - Curtilage/open fields
 - Abandoned property

NOTE: Searches relating to prisoners or bookings are found in the orders relating to those issues.

3. SEARCH WARRANTS

- A. A search warrant will be issued only on probable cause and must be supported by an affidavit describing particularly the property or person to be seized and the persons and/or premises to be searched.
- All searches and seizures conducted pursuant to a search warrant are presumed reasonable.
- B. Administrative Guidelines Concerning Obtaining a Search Warrant

(1) Search Warrant	<ul style="list-style-type: none">• A search warrant may be issued for the following purposes:<ul style="list-style-type: none">* To recover property that has been stolen* To seize property used as a means of committing a public offense (instrumentalities)* To seize property, the mere possession of which is a violation of law (contraband)* To seize property in the possession of any person who intends to use it as a means to commit a public offense, or in the possession of another to whom it may have been delivered for the purpose of concealing or preventing it from being discovered* To seize property or things that constitute any evidence that tends to show a particular offense has been committed, or tends to show a particular person has committed an offense (items of evidentiary value only)* To search for the subject of an arrest warrant in a third party's residence (absent of consent or exigent circumstances)* Valid administrative/inspection search• If the officer possesses a valid arrest warrant, a search warrant is not necessary to enter the suspect's own residence; however, the officer must have probable cause to believe the suspect may be in the residence.<ul style="list-style-type: none">* A suspect's residence is considered the place where the suspect resides (as opposed to being a temporary guest or visitor).• The knock and announce provisions of ARS 13-3891 must be complied with to give the suspect the opportunity to surrender.
(2) Affidavit for Search Warrant	<ul style="list-style-type: none">• The affidavit for search warrant presented to a judge should be based on the following:<ul style="list-style-type: none">* Personal knowledge of the applicant* Another peace officer* Information received from a reliable informant whose reliability should be established prior to the time the warrant is issued• In rare cases, the judge may find probable cause based on the totality of the circumstances, even though the information source is anonymous or otherwise is not a past proven reliable informant.• Affidavits lacking sufficient facts for a magistrate to exercise the necessary judgment, even though the warrant is issued, will likely lead to the suppression of the evidence seized on the warrant.• Officers must be extremely careful to describe exactly those premises to be searched, especially those composed of apartments, duplexes, or any places where more than one family lives.• If a vehicle is to be searched, it will be described as accurately as possible.• Each item that is the object of the search will be specifically described.• A warrant to search premises does not automatically extend by itself to include the search of persons present. Independent probable cause must exist to search the person.

 - (d) Develop strategies and tactics for approaching, entering, securing and leaving the structure
 - (e) Discuss with all members of the entry and search teams the threat potential and anticipated necessity for using force and making arrests
 - (f) Review the plan of execution with the immediate superior to evaluate effectiveness and approve the necessary action if the potential for violence is imminent or considered significant
- (4) Any deviation from the execution of search warrant procedures will be cleared through the highest ranking supervisor of the bureau/precinct involved in the investigation prior to notifying the precinct or duty commander.
- (5) Photographs will be taken of any damage and a Report of Property Damage/Loss/Injury Form 80-511D will be completed.

G. Seizure of Property

- (1) Although several officers may engage in the search, one officer should be designated the finder so that one officer is responsible for documenting the circumstances of the search and seizure of property.
- (2) Officers executing a search warrant are not necessarily limited to seizing only the items described on the warrant.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 10

5. G. (2) (a) During the execution of the warrant, officers may seize the following items even though such property is not named on the warrant:

- Contraband
- Items of property the officer has probable cause to believe are stolen
- Instrumentalities of a crime
- Items of evidentiary value

(b) The items listed above in 5.G.(2)(a) may be seized only if they have been found within the course and scope of a proper search under the warrant, such as plain view.

EXAMPLE: ¹A warrant for a stolen television set would not justify the seizure of a pistol found in a small dresser drawer.
²A warrant for marijuana would justify the seizure of the same pistol.

(c) When an officer seizes property during the execution of a search warrant, a detailed receipt for the property seized will be given to the person from whom it was taken or in whose possession it was found.

- If the property is seized when a person is not present, a receipt will be left in a conspicuous place at the location where the property was found.
- Any officer present and participating in the search may sign the receipt.

H. Information Sources

(1) When information leading to the request for a search warrant has been supplied by an information source, the underlying circumstances demonstrating the source is credible or reliable, and the underlying circumstances that led the source to conclude the items to be seized (contraband, fruits and instrumentalities of a crime, or items of evidentiary value) would be where it is claimed to be, must be stated in the affidavit.

(2) When informant information is used to establish probable cause and the informant must remain confidential, the reason will be substantiated in the affidavit.

(a) When possible, the officer who is using the informant should be the affiant for the search warrant.

(b) The officer will make certain the informant is not present when the search or undercover buy takes place; if the informant becomes a material witness to the crime charged, the court will order the informant's identity disclosed.

(3) Refer to Operations Order 4.22, Information Sources, for additional policies governing the use of information sources.

6. **OBTAINING PHYSICAL EVIDENCE FROM A PERSON** - The County Attorney has made the following recommendations regarding obtaining physical evidence, such as fingerprints, photographs, handwriting samples, blood samples, and urine samples.

A. Pre-Arrest	<ul style="list-style-type: none"> • ARS 13-3905 provides for the issuance of a court order for the temporary detention of a subject to obtain evidence of identifying physical characteristics when there is no probable cause to arrest. • Reasonable cause to believe a crime punishable by at least one year in prison has been committed is required to obtain this court order. • Must show that procurement of the evidence may contribute to the identification of the person who committed the crime. • A showing must be made that such evidence cannot otherwise be obtained by the investigating officer from the Department or DPS.
----------------------	--

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 11

6. OBTAINING PHYSICAL EVIDENCE FROM A PERSON - (Continued)

A. Pre-Arrest (Continued)	<ul style="list-style-type: none"> There must be a reasonable connection between the subject to be detained and the crime charged. The person to be detained has the right to counsel during temporary detention; officers are not obligated to advise the person of this right. This court order must be signed by a magistrate. The court order is valid for 15 days maximum and must be returned to the magistrate within 30 days from the date of issue. The subject may be detained for a maximum of three hours.
B. Post-Arrest/Pre-Indictment	<ul style="list-style-type: none"> A search warrant may be used in accordance with ARS 13-3912 and ARS 13-3913 to obtain personal physical evidence so long as no unreasonable intrusion of the person's body occurs. An officer must establish probable cause that the thing to be seized tends to show a crime has been committed, tends to show a particular person committed the crime, or is evidence of a crime. The following is recommended: <ul style="list-style-type: none"> * The defendant be allowed to contact an attorney, if requested. * The attorney will be allowed to be present during the taking of the exemplar if this can be timely and reasonably accomplished without hindering the process.
C. Post-Indictment; Information or Complaint	<ul style="list-style-type: none"> Rule 15.2(a) of the Rules of Criminal Procedure, permits the prosecutor, upon written request to the defendant, to obtain certain evidence (such as to appear in a line-up; physical characteristics evidence, handwriting exemplars, voice comparison, try on clothing, submit to reasonable physical or medical inspection of defendant's body). Officers choosing not to use Rule 15.2(a) in post-indictment situations should consult with the case prosecutor prior to taking any action. Defendants have the right to have their lawyer present when evidence is taken under Rule 15.2(a); the prosecutor should notify the defendant's attorney prior to obtaining evidence under this rule.

7. SEARCH INCIDENT TO LAWFUL ARREST

- A. Warrantless searches incidental to a lawful arrest are valid for the following reasons:
- (1) To seize weapons or other articles that might be used to attack the officer
 - (2) To seize the means suspects might use to affect their escape
 - (3) To prevent the destruction of fruits, instrumentalities, or evidence of any crime
- B. The Person
- (1) Immediately upon a full custody arrest, an officer may lawfully search the person of the arrestee, items under the arrestee's immediate control (such as a backpack or wallet and the area within the arrestee's reach).
 - (2) The officer needs no further justification for the search other than the lawful arrest.
- NOTE:** See section below if the subject is to be cited and released (not booked).
- C. Within Reach
- (1) Search beyond the person must be limited to those areas that remain within the reach of the arrestee.
 - (2) Reach is not confined to arm's length, but includes the area reachable by the person if a lunge or quick move were made to gain possession of a weapon or evidence.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 12

7. C. (3) If it is necessary for the person arrested to move about after arrest to put on clothing or assemble belongings, those areas where the person still has access may also be searched for weapons or evidence.
- D. Searching the Premises - Officers may not search the premises where an arrest is made simply based on the fact of the arrest.
- In extremely rare circumstances, officers may search the premises at the time of arrest without a search warrant if there are justifiable facts showing all the following circumstances:
 - * There was probable cause for the search (sufficient grounds upon which a search warrant could have been obtained).
 - * Special circumstances existed that would make it impossible to safeguard the premises while a search warrant was being obtained after the arrest.
 - * Special circumstances existed that required making the arrest before a search warrant could be obtained.

NOTE: If possible, officers should secure the location and obtain a search warrant.

E. Search Incident to Arrest When Issuing an Arizona Traffic Ticket and Complaint (ATTC)

- (1) If an officer observes a criminal violation (including criminal traffic) and intends to cite and release the subject from the start of the incident, the suspect being issued the ATTC will not be searched incident to arrest.
 - Officers will not search anyone incident to arrest unless they book the subject into jail or transport for further investigation.
- (2) Officers may still conduct a limited frisk of the outer clothing of the suspect for the purpose of discovering weapons that might be used to assault the officers, if there is reasonable suspicion to believe the person is armed or a danger to officers or others.
- (3) A search of the subject may also be conducted based on probable cause the subject possesses evidence, contraband, fruits of the crime, instrumentalities, and/or items subject to lawful seizure, on their person, even though they will be cited and released.

8. SEARCH BASED ON EXIGENT CIRCUMSTANCES (NO WARRANT)

- A. A search warrant to enter is not required when exigent circumstances exist, these circumstances may include:
 - Response to an emergency (such as medical, fire, or bomb scare)
 - Hot pursuit of a felony suspect
 - Possibility of violence (such as hostage/barricade, domestic violence, or sexual assault)
 - Probability of destruction of evidence
- B. Whenever there is a need to conduct a search of a place (even the location of an anticipated arrest) and if an arrest does not have to be made immediately, the proper procedure is to obtain a search warrant before the arrest so it may be executed at the time of arrest.
- C. Whenever there is a need to conduct a search of premises for which a search warrant is ordinarily required, but it becomes necessary to make an arrest before the search warrant can be obtained to preclude the suspect's escape or the loss of evidence, or prevent harm to persons, officers may be left to secure the premises from the outside while another obtains the search warrant.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 13

8. C. (1) Officers may enter the premises without a search warrant to secure it from within (protective sweep) if exigent circumstances are present.
- (2) The following factors shall be considered in establishing exigent circumstances:
- (a) Whether probable cause existed to search
 - (b) Whether probable cause existed to believe someone was inside the premises who was aware of the items to be seized, and the person inside was aware of the imminent police search, and the person inside was involved in the criminal activities to the extent the person would have destroyed the evidence
 - (c) Whether the officer's tactics or conduct created the exigent circumstances
- D. When reporting facts in an IR pertaining to a search and seizure based upon exigent circumstances, officers should articulate the specific circumstances that caused them to take immediate action, for example:
- (1) The reliable information that caused the officer to believe the suspect was armed
 - (2) The exact nature of the emergency, such as a fire or medical emergency
 - (3) Seriousness of the offense
 - (4) The likelihood of evidence being destroyed or removed

9. **SEARCH AND SEIZURE OF A VEHICLE WITHOUT A WARRANT**

- A. A vehicle may be stopped for investigation if the officer has a reasonable suspicion to believe the driver or occupants are involved in criminal activity or committed a traffic offense.
- (1) The driver and passengers may be ordered out of the vehicle or to remain within the vehicle.
 - (2) The passenger compartment of the vehicle may be searched for weapons if the officer has reasonable suspicion the person associated with the vehicle is dangerous and the person may gain immediate access to weapons in the vehicle; the search is limited to areas where a weapon might be placed or hidden.
 - (3) The trunk may be searched only pursuant to probable cause, by vehicle inventory prior to release or tow, or by consent with authority or by apparent authority.
- B. Vehicles and other conveyances (cars, trucks, RVs, or airplanes) may be completely searched without a search warrant when there is probable cause to believe the vehicle contains items that may be seized and the vehicle is mobile or readily capable of becoming mobile.
- (1) The warrantless search may extend anywhere in the vehicle, including closed and locked containers, where the items being searched for may be found.
 - (2) If probable cause exists to search a vehicle that was in a mobile condition when it came into the custody of an officer, the vehicle may be moved to another location, such as the police station, out of the rain, and searched without a warrant.
- C. If probable cause exists to search a container that is in a vehicle in a mobile condition, a search warrant is not necessary to search the container, even though there is no probable cause to search the entire vehicle.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 14

9. D. Search Incidental to Arrest Made from a Vehicle

- (1) Vehicle searches incidental to arrest are governed by *Arizona v. Gant*
- (2) When an officer has made a lawful custodial arrest of an occupant of a vehicle, a search incident to arrest can only be conducted in one of two circumstances:
 - (a) When the arrestee is unsecured and within reaching distance of the passenger compartment at the time of the search
 - (b) When it is reasonable to believe evidence relevant to the crime of arrest may be found in the vehicle
- (3) The search incident to arrest should commence while the arrestee is still at the scene.
- (4) This search does not extend to the trunk.
- (5) If an arrest is made as a result of a stolen vehicle stop, and a search incident to arrest is completed, the vehicle will be inventoried (including the trunk) prior to tow, release to owner, or if the vehicle is locked and left legally parked at the owner's request.
 - An inventory search will be conducted as listed below in section 9.E. of this order.

E. Vehicle Inventories

- (1) All vehicles that are to be towed that come under the control of officers will be inventoried prior to the tow.
 - (a) The purpose of an inventory is to protect the owner's property while it remains in police custody, to protect the officers against claims or disputes over lost or stolen property, and to protect the officer and others from potential danger.
 - (b) The purpose is not to find evidence.
 - (c) Officers will look in all areas where valuables or dangerous items could reasonably be located.
 - (d) Closed containers will be opened for the purposes of an inventory when the contents cannot be determined from examining the container's exterior.
- (2) Officers will document the results of the inventory in the following manner:
 - (a) If an IR is completed, the procedures for documenting property in this order will be followed.
 - (b) If nothing of value was located, this will also be documented in the IR.
 - (c) Officers will document the search of a vehicle and the inventory of a vehicle as separate events in the IR.
- (3) When an owner/driver of a vehicle requests the vehicle be locked and left legally parked, officers will inventory the vehicle.
 - (a) Officers will inform the owner/driver the vehicle will be inventoried for the protection of the owner/driver as well as the Department.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 15

9. E. (3) (b) If the vehicle cannot be locked, and the owner/driver insists it be left at the scene, officers will discuss the potential for loss or damage with the owner/driver, such as a high crime area or potential for thefts.
- (c) If the owner/driver acknowledges responsibility and still insists the vehicle be left at the scene, the vehicle will be legally parked and left.
- (d) Officers will document the following information in the IR (if completed) or Field Interview (FI).
- Disposition of the vehicle
 - Owner/driver's knowledge of potential for loss or damage
 - Owner/driver's acknowledgment of responsibility for the vehicle
- (4) If a responsible party is present who is willing (with the owner/driver's permission) to take responsibility for the vehicle, no inventory will be conducted.

10. PERSONAL INVENTORY

- A. The purpose of an inventory is to protect the owner's property while it remains in police custody, to protect the officers against claims or disputes over lost or stolen property, and to protect the officer and others from potential danger.
- The purpose is not to find evidence.
- B. Personal Effects
- (1) Upon the full custody arrest of a subject, officers shall inventory all personal effects in the person's possession prior to booking.
- (2) As part of the inventory, officers shall look inside all containers, locked or unlocked.

11. PLAIN VIEW AND OPEN VIEW

- A. Officers may lawfully seize items in plain view.
- (1) If during a valid frisk or pat down, an officer feels something the officer immediately recognizes as being crime-related, the officer may seize the item without a warrant.
- (2) The officer must be able to articulate the probable cause to believe the item was contraband or otherwise seizable as being crime-related, such as training or experience.
- B. Officers may not immediately seize items they see in "open view," unless exigent circumstances develop, or another exception to the warrant requirement applies, officers must obtain a search warrant before they seize items in "open view."

12. CONSENT TO SEARCH (WITHOUT A WARRANT)

- A. Any consent search must be voluntary, without force, threats, or promises.
- (1) The voluntariness of a person's consent is determined by the totality of the circumstances, using a reasonable person standard.
- (2) A person who gives consent for the search waives the requirement for both a warrant and probable cause.
- B. The person giving consent must have the authority to give such consent.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 16

12. B. (1) A person has authority to consent if such person has common access or control over the area to be searched.
- (2) If under the circumstances, the officer reasonably believes the person granting consent has such authority, the consent will be valid, even if later it is found the person lacked the authority to consent.
- (3) Examples of persons who may have authority to consent are:
- Spouse
 - Parent
 - Host
 - Employer
 - Roommate (common areas)
 - Child of suitable age and discretion (determined on a case by case basis)

- C. If persons against whom the search is directed consent to the search of their persons or property, a search may be made and any fruits of a crime, instrumentalities of a crime, or contraband articles may be seized.

EXCEPTION: Officers will not conduct a search for evidence if a person that has joint access and control is present and refuses to consent to the search, even if another person with joint access and control is present and consents to the search.

- This does not mean officers cannot enter and search pursuant to a search warrant or under exigent circumstances: for example, domestic violence situations where police are entering to protect the possible victim and are not searching for evidence of an unrelated crime.

- D. The scope of a consent search is determined under the reasonable person standard.
- (1) An officer may search based upon consent only in places a reasonable person under the circumstances would have believed were included in the consent.
- (2) When the officer's presence on the premises is based solely on lawful consent, the officer may not search the entire premises unless the search is within the scope of the consent: for example, officers may have consent to search the basement but not the bedroom.
- E. Consent may be withdrawn at any time and, should this occur, the search must be terminated, unless probable cause has been developed.
- F. If challenged, the officer has the burden to show the consent was purely voluntary and not the product of coercion.
- G. Knock and Talks – A special type of consent search with additional procedures that must be followed to ensure the admissibility of any evidence obtained.
- For guidance and information concerning "Knock and Talks" contact DEB.

13. **PROTECTIVE SWEEP**

- A. The purpose of a protective sweep is to protect the officers and others on the scene of an arrest from an immediate danger. Officers may look in places where a person could hide.
- B. Officers may look in closets, under beds, and other places a person could hide in the immediate room where the arrest occurs. No reasonable suspicion or probable cause is necessary.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 03/18 PAGE 17

13. C. To go beyond the immediate room or location of the arrest, officers must be able to articulate facts which, taken together with rational inferences from those facts, would warrant a reasonably prudent police officer in believing the area to be searched harbors an individual posing a danger to those on the arrest scene.

14. CURTILAGE AND OPEN FIELDS

- A. Curtilage - Although curtilage is difficult to define, it generally is the area around the home a person would reasonably expect to remain private.
- B. A person has a reasonable expectation of privacy in the curtilage of the home.
- C. The following are four factors to consider when determining whether the area to be searched or entered is part of the curtilage:
 - The area's proximity to the home
 - Whether the area is included within an enclosure surrounding the home
 - Whether the area is being used for the intimate activities of the home
 - The steps taken by the resident to protect the area from observation by passersby
- D. Open Fields - Defined as any unoccupied or undeveloped area outside of the curtilage of the home.
 - (1) A person has no reasonable expectation of privacy in an open field.
 - (2) "Open field" is not to be taken literally; it could be a forest, desert area, or field.
 - (3) An officer may enter an "open field" without a search warrant and seize any evidence in plain view.

NOTE: A person may have a reasonable expectation of privacy in buildings, structures, or other property located in an "open field" and a search warrant or an exception thereto may be required before officers may search or seize evidence.

15. ABANDONED PROPERTY

- A. Abandonment is the voluntary relinquishment of control of property.
- B. A person who abandons property does not have an expectation of privacy in the property and there is no Fourth Amendment violation if the property is seized and searched.
- C. Examples of Abandoning Property
 - Subject throws a paper bag down and walks away from it
 - Trash that is set out on curb for garbage collection
 - Subject denies luggage checked in at the airport
 - Subject checks out of hotel

16. FIELD INTERVIEW AND INVESTIGATIVE DETENTION (STOP AND FRISK)

- A. The decision to detain and question a person will be determined by the individual situation.
 - (1) Officers must be able to articulate specific facts to show the detention was based upon a founded suspicion and was not done arbitrarily or for the purpose of harassment.
 - Officers will not stop an individual based on race, color, religion/creed, sex/gender, ethnic or national origin, age, sexual orientation, gender identity or expression, disability, or economic status, unless part of a suspect description.

SEARCH AND SEIZURE	Operations Order 4.11
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 18

- 16 A. (2) What is suspicious cannot be set forth in these orders.
- (3) Each officer must use personal knowledge, experience, training, and observations to determine what situations appear suspicious.
 - (4) Officers will be courteous and use a professional demeanor when questioning a person.
 - (5) If satisfied the subject is not involved in any suspicious or illegal activity, or is of no concern to any Department detail, an FI will not be required.
 - (6) Officers are not prohibited from contacting persons and engaging them in conversation.
 - (a) The person need not cooperate with the officer.
 - (b) If officers lack a reasonable suspicion to detain the person, officers shall not stop or detain the person merely based on their desire to speak with the person.
 - (c) When questioning individuals for personal information, the Federal Privacy Act of 1974 requires officers to advise persons that providing their social security number is voluntary and used for keeping and collecting accurate records and identification.
- B. Warrant checks will be made during the detention and interrogation, via the Mobile Data Computer (MDC), police radio, or telephone whenever possible.

NOTE: Officers will not wait until the end of shift to make records checks.

- (1) If a City of Phoenix warrant hit is received, officers will telephone ISU as soon as possible to verify the warrant.
 - All other warrants will need to be verified by the issuing agency.
 - (2) If the Arizona Crime Information Center (ACIC) or the National Crime Information Center (NCIC) system is down, officers will contact the Maricopa County Sheriff's Office (MCSO) to verify local felony warrants.
 - (3) When a warrant check reveals a BOLO (Be On Look Out), officers will call ISU for further information
 - If a telephone is unavailable, officers will ask the Communications operator to obtain the information from ISU and relay it to them.
- C. The subject's name and physical description, vehicle description, and purpose of the contact will be entered via the MDC screen and routed to the detail most concerned with the subject, such as Robbery or Auto Theft.
- D. An officer may stop a person for investigative detention if the officer has a reasonable suspicion to believe that crime is afoot (suspicious circumstances indicating criminal activity).
- (1) The stop is limited to such period of time as is reasonably necessary for the accomplishment of the purpose of the stop.
 - (a) This will be determined on a case-by-case basis.
 - (b) Officers must diligently pursue their investigation to confirm or dispel their suspicion.
 - (2) Twenty minutes is the rule of thumb for determining the reasonable amount of time necessary to investigate.

SEARCH AND SEIZURE**Operations Order
4.11****PHOENIX POLICE DEPARTMENT**

Rev. 10/15

PAGE 19

16. D. (2) (a) Under the circumstances, a reasonable amount of time could be more or less than 20 minutes.
- (b) The longer the detention, the greater the need for compelling circumstances.
- E. During an investigative detention, an officer may frisk or pat down the person's outer clothing if the officer has a reasonable, articulable belief the person is armed or dangerous.
- (1) The following should be considered:
- (a) The frisk is to check for weapons.
- (b) The purpose of the frisk is to protect the officer.
- (c) Suspicious activity alone will not allow a frisk for weapons, contraband, or other evidence.
- (2) Persons Carrying Objects
- (a) If the person is carrying an object (a purse, shopping bag, or briefcase), an officer may remove such object from the person's control if the officer reasonably believes under the circumstances the object may contain a weapon or dangerous instrument.
- (b) If the officer cannot determine whether such object contains a weapon without opening it, the officer may look inside the object and briefly examine its contents.
- F. Generally, a person detained for investigation should not be handcuffed, confined in a police car, or transported from the location of the stop without their consent.
- (1) If the person presents an articulable safety or escape risk, the officer may restrain or confine the person during the stop.
- (2) A person detained for investigation may be transported a few blocks for identification by witnesses. The better practice is to bring the witnesses to the person's location.
- G. If, during an investigative detention, probable cause is developed to arrest the person detained, the person may be handcuffed, confined in a police car, or transported from the scene.

INITIAL RESPONSE PROCEDURES	Operations Order 4.12
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 1

1. ABANDONED REFRIGERATORS

- A. It is a misdemeanor for any person to keep an abandoned refrigerator, icebox, or similar container in a place accessible to children without removing the door, hinges, lid, and/or latches per [Arizona Revised Statutes 36-1651](#).
 - (1) Officers will advise the owner or person in charge to eliminate the hazard immediately.
 - (2) If it appears it would be physically impossible for the violator to remove the door (old age, physical handicap, lack of tools, etc.), the violator may be advised to contact the local fire station for assistance in removing the door, hinges, etc.
 - (3) Officers will complete an Incident Report (IR) for such violations.
- B. A follow-up check will be made by resource bureau detectives; if uncorrected, the procedure for obtaining a complaint will be followed.

2. ALARMS

- A. When responding to silent or audible alarms, officers will treat the alarm as valid until the premises, vehicle, or person has been checked.
- B. False Alarms
 - (1) When it is determined an alarm is false, officers will complete the Mobile Data Computer (MDC) False Alarm Mask and include the following information:
 - Area (as specifically as possible) in which the alarm was activated and the cause of the activation.
 - Name of the representative at the premises if one responds.
 - Reason for the activation and whether or not the representative knows the reason for the activation (list representative's response).
 - (2) If, after checking the premises or mobile device, the alarm is found to be false, officers should complete the False Alarm Notification Form 80-304.D and leave it at the premises or with the responsible party.
- C. Alarm Devices
 - If the alarm activation involves a smoke or fogging device for the interior of the building, entry will not be made until a responsible party verifies the system has been turned off and the substance has dissipated.
 - * Officers will take perimeter positions to cover building exits.
- D. Responsible Party
 - (1) Officers can access information on responsible parties from the "call information" section of the "My Calls" screen on the MDC, or contact the Communications Bureau supervisor, who can access the False Alarm Tracking System.
 - (2) Officers responding to audible alarms where a responsible party cannot be located should not trip breaker boxes or otherwise cause the alarm to become inoperable.
 - (3) The Alarm Unit office can be contacted at 602-534-0322 during normal business hours if officers encounter problems with any alarm company or subscriber.

INITIAL RESPONSE PROCEDURES	Operations Order 4.12
PHOENIX POLICE DEPARTMENT	Rev. 05/19 PAGE 2

2. E. The following disposition codes will be used for alarm calls:
- N (No Additional Action) - For alarms that cannot be located
 - O (Other) - For false alarms by completing the False Alarm Mask on the MDC
 - R (Reports) – For valid alarms where an IR is completed
- F. This policy does not apply to vehicle alarms.
3. **CRITICALLY INJURED POLICE SERVICE ANIMAL** - The following policy is intended to serve as a guide when a police service animal is critically injured/killed in the line of duty.
- A. The first supervisor to arrive at the animal hospital will assess the location, prepare for the police service animal's arrival if the animal has not already arrived, and assume control of the police response.
- B. Only members of the injured police service animal's unit/detail will be granted access to the trauma room/animal hospital waiting room once cleared for access by hospital staff.
- C. Memorial Service
- (1) In the event a police service animal succumbs to his/her injuries, the memorial service location will be determined by the police service animal's unit/detail and should be a place of significance to the unit/detail (park, training area, etc.).
 - (2) The memorial service is intended to be private and only for the police service animal's unit/detail.
 - The Employee Assistant Unit (EAU) will work with the Public Affairs Bureau (PAB) to provide an avenue for employees and the public to view the memorial service.
 - (3) The police service animal's handler and unit/detail will have the option to accept:
 - An urn for the police service animal's remains (if not donated, will be paid for by the unit/detail)
 - A symbol of remembrance (tree, plaque, etc.) to be placed at the memorial service location
 - A flag presentation by the Honor Guard to the service animal's handler
 - Taps played by the Honor Guard
 - To have the police service animal's handler speak during the memorial service
- D. For any cards/letters and/or donations received on behalf of the injured/deceased police service animal and/or his/her handler, follow the cards/letters and donations procedures as outlined in Operations Order 9.10, Critically Injured Employee Hospital Response.
4. **DECOY ASSIGNMENTS** - In order to minimize the potential hazard to officers making arrests in decoy situations, the officers designated to make the physical apprehension will be in uniform unless exempted from this requirement by the bureau/precinct commander/administrator.
5. **EMERGENCY RESPONSE TO CORRECTIONAL FACILITIES**
- A. In the event a correctional facility located within the City experiences an emergency situation, the Department will provide immediate assistance.
- (1) The Department's function will be limited to that of support for the responsible agency.
 - (2) Phoenix officers will return to normal service as soon as the situation has stabilized or the responsible agency is able to bring in manpower reserves to relieve Phoenix officers.

If a dog is involved, the owner will be reminded of the licensing and leash laws. If the problem is aggravated or recurring, the complainant will be advised to contact the Maricopa County Animal Care and Control.
E. Restraining Orders	<ul style="list-style-type: none"> Restraining orders are issued by a court to prohibit persons or businesses from taking specified actions. Complainants will be advised to contact the issuing court judge who signed the document in order that a summons may be issued. Officers will not take on-view enforcement action on violations of restraining orders unless a separate criminal offense occurs. Action will then be taken on the separate offense only. Persons inquiring about the procedure for obtaining restraining orders will be advised of: <ul style="list-style-type: none"> Restraining orders concern civil matters in which no police action is required. A crime need not be committed before a restraining order can be issued. The complainant will be advised to contact a private attorney.
F. Consumer/ Business Disputes	<ul style="list-style-type: none"> Citizens may call the Consumer Information Section of the Attorney General's Office at 602-542-5763.
G. Material & Labor Liens on Personal Property ARS 33-1021	<ul style="list-style-type: none"> When an item of personal property (except a motor vehicle) is repaired or cleaned, glazed or washed by the labor of a carpenter, mechanic, artisan, or other workman, such person has a lien on the property and may retain possession of the property until the amount, including materials, is fully paid. No enforcement action will be taken except to preserve the peace.
H. Garage Liens ARS 33-1022	<ul style="list-style-type: none"> When the owner of a vehicle and the owner of a vehicle repair business have entered into an agreement regarding the fee to be charged for repairs to a vehicle, the owner of the business shall hold a lien on the vehicle. Verbal agreements are binding. If the business owner gives up possession of the vehicle, the business owner also gives up the lien. Garage liens do not apply to towing situations where the owner of the car has not given consent for the tow. Officers will take no enforcement action except to preserve the peace.

I. Self-Service Storage Lockers ARS 33-1703	<ul style="list-style-type: none"> Owners of self-service storage lockers facilities have the right to withhold personal property stored in locker spaces if rent is unpaid and due. If rent payments are 30 days past due, the storage locker owner may sell the property. These rights only apply if the rental agreement contains warnings to the tenant that the storage locker owner has these rights. Violation of this statute is not a crime. Complainants should be advised to contact a private attorney.
J. Repossession of Property	<ul style="list-style-type: none"> When a person borrows money or receives credit to purchase an item of property such as a piece of furniture, an appliance, or an automobile which establishes a certain payment plan, the party lending money or extending credit to the borrower/debtor for the purchase is considered a lien holder who retains a security interest in the item of property until the loan or credit terms are repaid. If the borrower/debtor defaults on his or her obligation to pay the lienholder when payment is due, the lien holder has the statutory right under ARS 47-9609, to reclaim the property through repossession: for example, "self-help" without court action, if it can be done without a breach of the peace. Lien holders typically engage repossession companies ("repo possessors") to accomplish this task for them. <ul style="list-style-type: none"> The statute does not define the term "breach of the peace" and it does not proscribe certain or specific acts. It is a legal term that gives the borrower/debtor or other private individuals the right to assert a civil cause of action against the lienholder or repossession. Property has been legally repossessed and the lien holder's lien has been perfected when the lienholder or repossession gains entry to the property or when it becomes connected to a tow truck. A lienholder or repossession may lawfully enter onto the real property of the borrower/debtor for the purposes of repossession. However, the lienholder or repossession <u>may not</u> enter into any portion of the curtilage of the real property, including an outbuilding or enclosed structure: for example, garage, or any area secured by a lock or fence, without the consent of the owner of the real property or the person in legal possession of the personal property subject to the debt: for example, borrower/debtor. Officers will take no enforcement action in these cases except to preserve the peace. <ul style="list-style-type: none"> Officers may not advance or hinder repossession under "color of State law." Officers will not force a lienholder or repossession to give up possession of the borrower/debtor's property. Doing so may subject the Department to civil liability. Officers will not accompany a lienholder or repossession in repossessing the borrower/debtor's property. This may be construed as "color of law" and subject the Department to civil liability. To the extent any party (debtor/borrower, lienholder or repossession) commits an offense punishable under ARS Title 13, such as trespassing into borrower/debtor's home, threatening violence, or committing an act of violence against another party, officers may take appropriate law enforcement action.
K. Neighborhood Disputes	<ul style="list-style-type: none"> The City Prosecutor's Mediation Program provides mediation and conciliation services to neighborhood residents involved in disputes that are non-criminal and non-violent in nature (noise complaints, animal complaints, problems between families, etc.) Residents can call Community Mediation Services at 602-256-4309 directly to schedule an appointment.

- B. Juvenile Probation, 3125 West Durango Street - Juvenile probation officers evaluate circumstances surrounding a juvenile offense and recommend what action should be taken by the court.
- Durango Juvenile Detention Facility, 3129 West Durango Street - A holding facility which provides a safe and secure living place for juveniles who must be detained (see section 8.C of this order for criteria JCC uses to hold a juvenile) to help maintain the safety of the community.
 - * JCC Intake operates on a 24-hour basis. The Phoenix location may be contacted at 602-506-4284 and the Mesa location at 602-506-2619.

3. JUVENILE REPORTS/PAPERWORK

- A. The following documents may be used when dealing with a juvenile: Incident Report (IR) to include the Juvenile Arrest/Referral Worksheet section, with a notarized Juvenile Affidavit, Form IV for felonies, Field Interview (FI), Arizona Traffic Ticket and Complaint (ATTC), Booking Report, and, if applicable, a Form IV(C) Release Questionnaire Intimate Partner Risk Assessment Form 80-597D (see Operations Order 4.26, Domestic Violence, for more information).
- B. Due to the fact both the ATTC and the Juvenile Arrest/Referral Worksheet are charging documents, only one will be completed for the same juvenile on the same date and time.

EXAMPLE: A vehicle is pulled over for going 25 miles over the speed limit at 0200 hours. Upon contact with the sole occupant, a 17 year old driver, a strong odor of marijuana emanates from the driver's open window and in a subsequent search, a small baggie of marijuana is found. Do not issue an ATTC for the criminal speeding and/or curfew violation. The **Juvenile Arrest/Referral Worksheet** section of the IR and a notarized Juvenile Affidavit must be completed to include the possession of marijuana **and** the criminal speeding and curfew violations.

C. IRs will contain:

- (1) The juvenile's name, address, telephone number, school attended, grade level, and grade-point average whenever possible.
- (2) The name, address, and telephone number of the juvenile's parents or guardians.
- (3) In the "Suspect Type" box in the Suspect section, if the juvenile is known or unknown, and if known, if arrested.
 - If the juvenile is arrested, either "Detained" or "Referral" will be selected in the Arrest Details panel of the Suspect section.
- (4) Juvenile Arrest/Referral Worksheet section and a notarized Juvenile Affidavit - Will be completed whenever a complaint is being sought against a juvenile who is being charged with a Title 13 offense or when an ATTC is not issued for a criminal traffic, status, or liquor offense.

- (a) The notarized Juvenile Affidavit will be scanned and attached to the IR as a "Document" when a juvenile is detained.

NOTE: The Juvenile Affidavit should be completed by the investigating officer who actually participated in the completion of the report and who has personal knowledge of the investigation.

- (b) Officers need to ensure all the required fields are completed in the Juvenile Arrest/Referral Worksheet section.
- (c) Juveniles will not be accepted at JCC Intake unless a completed IR (including the Juvenile Arrest/Referral Worksheet section and any Incident Supplements) and the original notarized Juvenile Affidavit is provided at the time of the detention.
 - When the Field Based Reporting (FRB) system is offline, officers must provide JCC with a "Draft" copy of the IR and the original notarized Juvenile Affidavit. A Superior Court Juvenile Referral form (available from JCC Intake) must also be completed.
 - * Refer to the Field Based Reporting User Manual for procedures when the FBR system is offline.

 - The nature of the offense.
 - The age and circumstances of the juvenile.
 - Prior delinquent activity.

- (b) After a full set of fingerprints are obtained (per Operations Order 7.4, Booking Procedures), appropriate ATTCs will be issued and the juveniles released to their parents or guardian unless there are other reasons for their detention.

- A deputy county attorney may be assigned to be present during interviews.
- (3) When a juvenile is in custody and requests to call an attorney or a parent, the juvenile will be allowed to do so.
- (4) Officers may legally interview a juvenile without contacting a juvenile probation officer.
- (5) Officers must be able to show the Juvenile Court confessions or admissions made by a juvenile were obtained without force, fear, threat, or promise of any kind.
- (6) Officers will limit the duration of the interview to a reasonable period of time and will take into consideration the juvenile's age, maturity, education level, and emotional state when conducting interviews.
- Officers will notify a supervisor if the interview is going to extend or has extended beyond two hours.
 - * This notification will be made as soon as practical without impairing the integrity of the investigation.
- (7) Under normal circumstances, no more than two officers will conduct an interview at one time.
- (8) Officers who desire to interview a student in school (regardless if the student is a suspect, witness, or victim) will notify school authorities in person or by telephone prior to the interview.

5. B. Information concerning juveniles involved in offenses, or offenses involving juveniles, may be released to valid members of the news media upon inquiry, within the boundaries set forth in Operations Order 4.6, Release of Records.

6. **JUVENILE PRISONERS** - Juvenile prisoners will be transported and handled according to the following guidelines:

A. Temporary Detention of Juveniles at a Police Facility

- (4) Juveniles may be kept in custody for up to six hours to allow for identification, investigation, release to parents, and/or transportation to a shelter or other appropriate place.

- Any contraband, such as illegal guns or narcotics, will be confiscated by officers for disposition in accordance with Department policies and listed in the IR.

7. JUVENILE FINGERPRINTING AND PHOTOGRAPHS

A. When a juvenile is arrested, a check will be made with the Centralized Booking Detail to determine if the juvenile has prints on file.

- (1) The Automated Fingerprint Identification System (AFIS) policy requires fingerprints each time a juvenile is to be detained at JCC.
- (2) Rationale for this policy is that a juvenile's appearance can change quickly during the rapid growth years; therefore, a similar requirement for photographs exists.

B. Procedures

- (1) Juveniles who have been arrested for a felony, sex offense, DUI, or domestic violence will be transported to the closest police facility to be photographed and fingerprinted by an officer or other LiveScan trained employee.

7. B. (2) Juveniles who are arrested on minor charges: for example, curfew and liquor, will be fingerprinted and photographed at a JDC (when available), precinct, or command station prior to detention or release if:
- The juvenile has a prior record of the same or similar type charges on file.
 - In the judgment of the officer, the current crime or the juvenile's attitude or demeanor indicates the juvenile could potentially participate in future conduct of a more serious nature.
- (3) Juveniles who are first-time status offenders will not be fingerprinted or photographed unless one of the following criteria is present:
- The juvenile has been charged with an additional crime.
 - The juvenile is identified as a gang affiliate, using approved identification criteria.
 - There is a significant doubt as to the juvenile's identity.
 - The juvenile has a previous curfew arrest.
- (4) The LiveScan system, using code 07 for a juvenile, should be used to obtain prints and the ImageWare Systems (IWS) should be used for photographs.
- (a) If the LiveScan system is down and the juvenile needs to be immediately identified for detention purposes, contact the Centralized Booking Detail Fingerprint Unit, at 602-495-3612, for further instructions.
 - (b) If the LiveScan system is down and the juvenile does not need to be immediately identified, officers should obtain the juvenile's fingerprints by using the Federal Bureau of Investigation (FBI) criminal fingerprint card (FD-249) ensuring:
 - All spaces are completely filled in.
 - Card is clearly marked "JUVENILE".
 - Each print is a clear, usable impression.
- (5) Any photographs not taken in IWS will be clearly marked JUVENILE.
- (6) Fingerprints and photographs not captured in the LiveScan system and IWS will be forwarded to the Centralized Booking Detail Fingerprint Unit prior to the end of the officer's shift.
- (7) Officers will document in the IR what procedures (fingerprint/photograph) were used to establish the juvenile's identity.

8. DISPOSITION OF JUVENILES

- A. Whenever an officer takes a child into custody, unless it is impractical or detention has been ordered by the court, preference will be given to the release of the child to a parent or guardian, and an IR will be completed.
- B. Release
- (1) Juveniles should be released even when the offense committed is serious enough to warrant court action if the juvenile can be safely released pending action by the court
- (a) This may be done without notifying a probation officer.
 - (b) In cases of violent offenses or large monetary losses, officers will consult their supervisor before releasing juveniles.

- (e) Must be held for another jurisdiction

- (g) May be charged as an adult for a serious offense, such as first or second degree murder, armed robbery, or sexual assault

* Prosecutors will decide if the juvenile will be remanded to adult court.

(2) JCC will only hold a juvenile in detention based on criteria listed above in (d) through (g).

(3) Prior to detaining juveniles at a JCC intake facility, officers will verbally review the circumstances of the arrest with a sworn supervisor, except for arrests involving subjects with undisputed warrants.

- Identify themselves as Phoenix police officers
- Give their name
- Inform the suspect of the offense about which they wish to ask questions; officers do not need to inform the suspect of every offense at issue.

B. For purposes of this order, a person is considered to be in custody when a reasonable person in the suspect's position would believe he/she is under arrest or is otherwise deprived of his/her freedom of action in a significant way.

(1) This does not usually include:

- Civil traffic stops
- "Terry" stops (investigative detention based on reasonable suspicion)

(2) Persons will be advised of their Miranda rights when they are in custody or otherwise deprived of their freedom of movement in a significant way and officers wish to question the person.

(1) At the Scene of a Crime	<ul style="list-style-type: none"> • General, on-the-scene questioning regarding facts surrounding a crime or other general questioning of citizens in the fact-finding process is permitted without the need to advise those questioned about their rights. <ul style="list-style-type: none"> * If after general, on-the-scene questioning a person who was questioned is placed in custody, then the admonition of rights will be given prior to further questioning.
(2) Field Interview	<ul style="list-style-type: none"> • Field interview (the temporary questioning of persons) does not require the rights admonition prior to interrogation as long as questions are limited to a request for name, address, and explanation of actions. <ul style="list-style-type: none"> * If the person is placed in custody during the field interview, the officer will advise the person of their rights when questioned further about the crime for which they are placed in custody.
(3) Stopping a Vehicle	<ul style="list-style-type: none"> • An officer may stop a vehicle and question its operator with regard to the enforcement of vehicle and traffic laws without the necessity of the admonition of rights until the person is taken into custody. <ul style="list-style-type: none"> * Persons in custody will be advised of their rights when questioned concerning a criminal traffic charge, including a charge of driving a vehicle while under the influence of intoxicating liquor.
(4) Volunteered Statements	<ul style="list-style-type: none"> • Volunteered or spontaneous statements of any kind are admissible as evidence, even though no admonition of rights is given. <ul style="list-style-type: none"> * Care must be taken with regard to questioning initiated by an officer thereafter in clarification or amplification of the volunteered or spontaneous statements (only if under the circumstance a reasonable person would believe he is in custody). * The best procedure in this instance is for the officer to give the warnings after the initial unsolicited statement is made and before requesting further details.

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 6

4. C. (Continued)

(6) Handwriting, Voice Samples, and/or Other Physical Evidence	<ul style="list-style-type: none"> Officers need not advise suspects of their rights prior to asking for a handwriting sample for use in determining whether or not a forged or bogus document was written or signed by the suspect.

 - Officers do not have to stop questioning a prisoner until the suspect asserts his rights.
 - The only person who can assert the right to an attorney is the suspect, not the suspect's family, attorney, etc.
 - For exceptions, see Operations Order 4.18, Juvenile Procedures.
 - (2) If a suspect invokes his/her right to an attorney, officers must honor that invocation and not initiate further custodial interrogation.
 - If the suspect simply indicates they wish to remain silent, officers may initiate further interrogation after a reasonable amount of time has passed, such as 2 hours.
 - (3) When suspects are advised of their rights, the date, time, location, response as to understanding their rights, officer's name, and the name of other persons present, will be included in appropriate reports.

- (7) Witnesses may be transported in police vehicles to search the general area in which a crime has occurred in hopes of locating the suspect and arranging a confrontation.

NOTE: In such cases, officers must avoid implicating anyone on the street or suggesting a certain person looks suspicious.

7. INFORMAL IDENTIFICATION PROCEDURES

- A. An informal identification procedure occurs when an officer arranges to take a witness to observe suspects in a non-custodial setting.
- (1) Generally, suspects are unaware they are under observation.

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 9

7. A. (2) The informal identification procedure may be used under the following conditions:
- (a) A suspect is not in custody and has not been charged with the offense under investigation and when a court order to compel cooperation of the suspect in appearing in a line-up is not appropriate.
 - (b) A suspect has been charged with the offense under investigation, but will be hospitalized for an extended period and prompt identification is essential, and the victim can be taken to several hospital rooms, including the suspect's, to determine if the victim recognizes the suspect.
 - (c) A suspect has been charged with the offense under investigation, but was released on bond or recognizance before a line-up could be held, and a live identification procedure is desirable.

B. General Procedures

(1) Single Locale	<ul style="list-style-type: none"> • A witness may be taken to a single locale where the suspect is likely to appear, providing that the locale is a place where a large number of people of physical characteristics roughly similar to the suspect are likely to be or pass by at random. • This technique can be used when the suspect is known or unknown, but is believed to frequent the locale chosen for the viewing. • Good locales would be a large shopping center, a campus, a theater, etc. • Prohibited locales would be the home of the suspect or a relative, the suspect's private office, or a little-patronized bar in which the suspect is one of a few customers.
(2) Multiple Locales	<ul style="list-style-type: none"> • When no single locale is likely to meet the requirements of the above paragraph, the witness may be taken to five or more similar locations, one of which is where the suspect is believed to be: for example, the suspect is believed to be employed on the night shift at a service station, and the victim is transported to six all-night stations, each of which employs attendants with physical characteristics roughly similar to those of the suspect.

C. Documentation - A detailed record of any informal identification procedures will be made and will include:

- The precise locations observed
- The approximate number of people, similar in description to the suspect, who were viewed
- The time period during which the identifications were made
- The suspect's reaction when made aware of being observed
- The witness's reaction upon seeing the suspect

8. ONE-ROLLS

A. Subjects who are required to be fingerprinted or photographed to aid in a criminal investigation may be taken to any LiveScan location (Information Services Unit (ISU), any precinct, or Centralized Booking).

- (1) Subjects may only be transported to a police facility to be fingerprinted or photographed when one of the following conditions exists:
- (a) Probable cause exists that an offense has been committed and the subject is under arrest for that offense.
 - (b) The subject is being detained under the authority of a court order for identification as defined by [Arizona Revised Statute \(ARS\) 13-3905](#).
 - (c) The subject voluntarily consents to be fingerprinted and/or photographed by the Department.

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 10

8. A. (1) (d) Officers should consider the following in establishing the voluntariness of the subject:

- The subject's free choice to go to a police facility
 - No restriction on the freedom to leave the police facility
 - Not under arrest or in custody
 - Detained for only a brief period of time at the police facility
 - Actually leaves after providing fingerprints and/or photograph
 - Juveniles understand they are not being compelled to consent
- * If officers have any doubt regarding the juvenile's ability to understand the right to refuse, officers will obtain parental permission to conduct the one-roll.

(2) A subject to be fingerprinted and/or photographed, when immediate identification is necessary, such as when an alias is suspected or the subject has no valid identification, must be taken to a LiveScan location.

B. Procedures - The officer will escort the subject to ISU, any precinct, or Centralized Booking to obtain the subject's fingerprints.

(1) LiveScan System Available	<ul style="list-style-type: none"> • If the LiveScan system is available, obtain the subject's fingerprints, and once completed, obtain a Process Control Number (PCN). • A photograph of the individual should be taken in the ImageWare Systems (IWS) using the PCN obtained from the LiveScan. • Upon completion of the one-roll, officers will contact the Centralized Booking Detail Fingerprint Unit, at 602-495-3612, and advise them of the one-roll by giving them the PCN. • The Centralized Booking Detail Fingerprint Unit will classify and search all fingerprints to establish the subject's identity immediately and notify the officer of the results. • One-roll information will remain on file in the Optical Print and Photo Image System (OPPIS) indefinitely.
(2) LiveScan System Unavailable	<ul style="list-style-type: none"> • If the LiveScan system is down City-wide, the Federal Bureau of Investigation (FBI) criminal fingerprint card (FD-249) (full 10 prints) may be used. <ul style="list-style-type: none"> * All spaces should be completely filled in. * Each print must be a clear, usable impression. • If IWS is available, a photograph of the individual should be taken (a PCN can be generated in IWS, which will be written on the fingerprint card). <ul style="list-style-type: none"> * If IWS is unavailable, contact ISU for possible options for obtaining the subject's photograph. • Forward the inked fingerprint card, with the PCN generated from the IWS photograph, to the Centralized Booking Detail Fingerprint Unit before the end of shift.

9. LINE-UPS - An identification procedure in which a suspect is placed in a live group setting and is presented to a witness.

- Live group line-ups are rarely practiced therefore any requests for a live group line-up will be approved and coordinated with the Legal Unit.

10. PHOTOGRAPHIC LINE-UPS, COMPOSITES, AND SKETCHES

A. The use of photographs, composites, and sketches to identify criminal suspects is permissible when the suspect cannot be found, when a suspect or witness refuses to cooperate, when a suspect is in custody some distance from the victim/witness, or when a suspicion about a person needs to be confirmed before the suspect is arrested.

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 11

10. B. When a photographic line-up is used to possibly identify a suspect, the photo line-up will be impounded as evidence even if there is not a positive identification.
- C. When a photographic line-up depicting a definite suspect is displayed to a victim or eyewitness, it will be arranged at random, if possible, with four or more photographs of different persons.
- (1) The persons depicted in the photographic display must be of similar general appearance.
 - (2) An adequate record of each photograph shown in each photographic display will be made and the photographs preserved so the display can be reconstructed at a trial
- D. The use of a mug book is appropriate when there is no specific suspect.
- (1) To ensure an accurate identification by this procedure, a reasonable number of photographs should be shown to a victim/witness even if the suspect is selected almost immediately.
 - (2) Whenever a suspect is selected by this method, a record of the mug book will be made and the photographs preserved so the display can be reconstructed at a trial.
- E. When there is not a suspect and the use of a mug book has been or is likely to be unsuccessful, a non-photographic pictorial representation (free-hand sketch, Identikit, etc.) may be used.
- (1) Showing a single sketch or composite to any number of witnesses is proper until a person is definitely identified as a suspect.
 - At that time, if there is probable cause to make an arrest, no other sketch, composite, or photograph will be displayed to any other witness.
 - (2) If probable cause for an arrest still does not exist after this type of identification, a photograph of the suspect should be obtained and the procedures as outlined in section 10.C, should be followed.

11. BOLO (BE ON LOOK OUT)

A. General Information

- (1) BOLOs are not an authority to arrest but only a request to obtain specific information on a subject or vehicle, or to notify officers of an Order of Protection, Mental Health Order, or other cautions.
- (2) BOLOs may be initiated by any officer but are generally limited to investigative details.
- (3) BOLOs should contain specific directions for action to be taken in the Synopsis section: for example:

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 12

11. B. (2) It is the initiating officer's responsibility to maintain or cancel the BOLO from the RMS BOLO module as appropriate.

C. Vehicle BOLOs

- (1) A vehicle BOLO alone does not provide officers with the authority to arrest occupants, seize evidence, transport occupants for fingerprinting, or tow and impound the vehicle.
- (2) Vehicle BOLOs may be used to obtain information on vehicles and occupants.
- (3) Prior to entering a vehicle BOLO, all means used to obtain current owner information will be documented in the appropriate IR.
 - (a) Vehicle BOLOs may be entered for any vehicle involved in a crime, when there is reasonable suspicion the vehicle has been involved in a crime*, or when the occupant/s may be a hazard to officers, and there is a valid vehicle license plate.
 - *Employees who enter a vehicle BOLO for tracking and informational purposes will use the "Tracking Only BOLO" template to ensure the following is included on the top line of the Synopsis:
 - * "FOR TRACKING PURPOSES ONLY, DO NOT DETAIN OR STOP SOLELY BASED ON THIS BOLO."
 - (b) In addition to the vehicle license plate, the BOLO shall also include:
 - Description of the vehicle
 - Suspect description
 - IR number
 - Any other pertinent information
- (4) Once a vehicle owner has been contacted and the needed information is obtained, the officer who issued the BOLO will immediately cancel the BOLO and make a notation in RMS Case Management module.

D. Person BOLOs

- (1) Person BOLOs are used for the following purposes:
 - To locate a person who is a subject of or witness in an investigation
 - To track a known suspect, such as a Repeat Offender Program (ROP) offender or Burglary Reduction tracking
 - To give notice of Orders of Protection involving a subject
 - To give notice of Mental Health Orders involving a subject
- (2) BOLOs for persons do not require probable cause or reasonable suspicion, only a legitimate law enforcement need to acquire information on or locate a person.
- (3) A BOLO may be entered requesting the arrest of a person based on probable cause prior to a warrant being issued.
 - Under these circumstances, hold the subject for investigative detention only and verify the information with the officer entering the BOLO, or by checking the IR prior to transporting to jail.

INVESTIGATIVE PROCEDURES	Operations Order 4.19
PHOENIX POLICE DEPARTMENT	Rev. 11/17 PAGE 13

11. E. Outside Agency BOLOs - To support cross-organizational information sharing and officer safety.

- (1) Outside agencies may request to have a BOLO entered in RMS by completing the External Agency BOLO Request Form 80-589D.
 - Officers may provide the form to outside agencies for completion.
 - Completed forms will be forwarded to DIU for entry.

NOTE: Officers will not enter outside agency BOLO requests.

- (2) Outside agencies with authorization will be able to view BOLOs from the RMS Explorer.

F. BOLO Procedures

- Officers contacting subjects/vehicles with a BOLO will make reasonable attempts to satisfy the request/s of the BOLO and complete an FI, to include:
 - * If the requesting officer was contacted
 - * If photograph/s were taken
 - * Subject information for follow-up by the requesting officer
 - * The outcome of the contact, such as arrest or citation

REPEAT OFFENDER PROGRAM	Operations Order 4.20
PHOENIX POLICE DEPARTMENT	Rev. 02/18 PAGE 1

1. **GENERAL INFORMATION** – The Department's repeat offender programs include the Repeat Offender Program (ROP) and the Misdemeanor Repeat Offender Program (MROP).
 - A. **Repeat Offender Program (ROP)** – Designed to identify offenders who are highly violent or have a high-rate of committing felony property crimes.
 - (1) Once the offender is identified as a target, ROP concentrates on post-arrest case enhancement with police/prosecutor teams to ensure appropriate follow-up corrective action within the justice system.
 - (2) Officers should be reminded to exercise caution when dealing with ROP targets due to their heightened violence potential.
 - B. **Misdemeanor Repeat Offender Program (MROP)** – Designed to identify offenders who have established a pattern of committing “quality-of-life” and misdemeanor property crimes (MROP targets violent offenders within that population).
 - (1) Once the offender is identified as a candidate, the MROP concentrates on post-arrest case enhancement with police, prosecutor, and community teams to ensure appropriate follow-up corrective action within the justice system.
 - (2) Consideration will be given to provide benefit assistance to offenders rather than criminal prosecution.
 - C. Both internal and external resources will be used to identify those offenders who repeatedly commit felony and misdemeanor crimes within the City.
 - D. ROP and MROP uses proven recidivism evaluation criteria based on factors that indicate a propensity for re-offending.

2. **ROP CANDIDATE CRITERIA**

- A. The following may be indicators that merit recommending a subject to the ROP Program:
 - Candidate is an adult or remanded juvenile
 - Current criminal activity is at a rate of five (5) or more crimes per week
 - Substance abuse that could not be supported by the individual's current financial means
 - Rate of unemployment
 - High-violence potential
- B. Officers should keep in mind that a suspect who has a high rate of recidivism in one type of crime: for example, robbery; or burglary, may also be a repeat offender of other crimes.
- C. Other criteria can be established by a ROP detective at the time of his/her involvement with the case.
- D. ROP does not routinely target sex offenders or drug offenders exclusively because the Maricopa County Attorney's Office has trial groups specializing in those two categories.

3. **ROP CANDIDACY PROCEDURES**

- A. If officers believe they have a ROP target or a potential ROP candidate in custody, they should contact the ROP Detail.
 - (1) ROP detectives are available 24 hours a day, 7 days a week.
 - ROP detectives' phone numbers are posted in the prisoner processing area and front desk of all precincts.

REPEAT OFFENDER PROGRAM	Operations Order 4.20
PHOENIX POLICE DEPARTMENT	Rev. 02/18 PAGE 2

3. B. If officers know of a potential candidate who is not in custody, they should complete a Repeat Offender Candidate Nomination form and forward it to the ROP Detail.

C. A targeted ROP offender may not be used as an information source without the approval of an assistant chief.

4. FLASH WARNING - CRIMINAL INFORMATION

A. When a records check is run on a subject who is a ROP target, a flash warning will appear on the Arizona Criminal Information Center (ACIC) record.

(1) If the subject is in custody on a **felony** arrest, the ROP Detail should be called.

(2) This warning will list the phone number and instruct the officer to call the detective in charge of that ROP case.

(3) The detective will advise the officer of procedures to be completed at that time: for example, photograph, Field Interview (FI), or hold subject for detective's arrival for an interview.

B. If the subject is in custody for a **misdemeanor**, the ROP Detail does not need to be called.

5. ROP DETECTIVE RESPONSE

A. If ROP detectives respond, they will ensure the proper paperwork is completed to forward the case to the proper ROP prosecutor.

B. ROP detectives will not normally take disposition of a criminal scene or a criminal investigation to avoid conflicts of interest.

6. ROP SURVEILLANCE SQUAD

A. Detectives assigned to this squad will assist ROP detectives by coordinating the surveillance of new ROP offenders.

- Emphasis will be placed on establishing and investigating the strongest, prosecutable new felony, class 4 or higher, cases.

B. These detectives will coordinate with other Department units in the apprehension of repeat offenders with outstanding felony warrants.

7. MROP CANDIDATE CRITERIA

A. The following may be indicators that merit recommending a subject to the MROP:

- Candidate has criminal history attributed to quality-of-life issues, including but not limited to; trespassing, soliciting from the roadway, urinating in public, public sexual indecency, indecent exposure, drinking in public, sitting or lying on public right-of-way, and violating court ordered travel restrictions
- Current criminal activity is at a rate of five (5) or more arrests in the last 12 months
- Specific complaint/s from neighborhood groups, the business community, or general public

B. Officers should keep in mind that a suspect who has a high rate of recidivism in quality-of-life crimes may also be a repeat offender of other crimes.

C. Other criteria can be established by MROP liaisons at the time of their involvement with the case.

REPEAT OFFENDER PROGRAM	Operations Order 4.20
PHOENIX POLICE DEPARTMENT	Rev. 02/18 PAGE 3

8. MROP CANDIDACY PROCEDURES

- A. If officers believe they have an MROP suspect or potential MROP candidate in custody, they should contact their precinct/bureau MROP liaison or supervisor.
 - MROP liaisons telephone numbers are posted in the prisoner processing area and the front desk of all precincts/bureau.
- B. If officers know of a potential candidate who is not in custody, they should complete an FI or send a City e-mail to their precinct/bureau MROP liaison.

9. MROP LIAISON RESPONSIBILITIES

- A. Each precinct will have a minimum of one officer/detective assigned to the MROP. The liaison is the information source and care taker of eligible MROP candidates in his/her respective precincts.
- B. The liaison must maintain the list of MROP candidates in his/her precincts in an intelligence file located in the records management system (RMS) and:
 - Maintain booking photographs.
 - Update file stop/RMS BOLO (Be On Look Out) information.
 - Maintain current Judgment and Sentence Orders.
 - Maintain letters from the community regarding the impact the suspect has/is having on the area.
 - Review all precinct nominations of MROP candidates to ensure they meet the induction criteria.
 - Review all Incident Reports (IRs) on MROP suspects to ensure all program criteria are met.
 - Attempt to obtain community presence at MROP sentence hearings.
 - Attend all regularly scheduled MROP committee meetings.
 - Nominate MROP candidates to the committee and defend their nomination.
 - Provide training on the MROP as deemed appropriate by the precinct/bureau commander.
 - Actively work cases involving priority MROP suspects assigned to them and any other responsibilities assigned by the commander.

- (1) The Arizona Medical Marijuana Act authorizes persons who have been diagnosed by a physician as having a debilitating medical condition to be in possession of an allowable amount of usable marijuana (see section 6.B for definitions).
- (2) Possession of marijuana remains a federal crime and non-medicinal use remains a crime under Arizona State Law therefore the Arizona Medical Marijuana Act does not invalidate the detention or the arrest of a person based either on a warrant or probable cause, or on-view violations of any criminal law.
- (3) The Arizona Medical Marijuana Act does not authorize any person to engage in, nor does it prevent enforcement action and penalties imposed for, the following conduct ([ARS 36-2802](#)):
 - (a) Possessing, transporting, or selling of marijuana without authorization from the Arizona Department of Health Services (DHS).
 - (b) Possessing or engaging in the medical use of marijuana:

If authorized to cultivate marijuana, 12 marijuana plants for each qualifying patient legitimately under their care, contained in an enclosed, locked facility except while in transit if the caregiver is moving (up to 72 plants if the caregiver is also a patient).

C. Procedures

- (1) It is the responsibility of a qualifying patient to disclose they are legitimately authorized to use marijuana for medicinal purposes and must have a valid Registry Identification Card.
 - (a) Verification of the Registry Identification Card can only be completed through DHS by the individual's 20-digit registry number, and not by name, date of birth, social security number, etc.
 - To verify card holder status, log onto www.azmmvs.azdhs.gov to register for access (website is also available on PolicePoint).
 - Officers may also request assistance from the Communications Information Channel for a query to verify card holder status.
 - (b) If an individual does not have their Registry Identification Card in their possession but knows the 20-digit registry number, officers should verify the subject's identity through an alternate form of identification, such as a valid Arizona driver license or identification card.
 - (c) When a subject cannot or will not provide a valid Registry Identification Card/number, the individual should be treated as any other subject found to be in possession of marijuana (ARS 13-3405).

C. 5. Accessibility to the Files

- (1) Access to such investigation files will be routinely limited to the investigators directly involved in the investigation and their supervisors.
- (2) This restriction is not intended to limit the free exchange of investigative information among officers with the need to know.
- (3) Employees **will not** use another employee's password in the FBR, RMS, or other systems to write an original IR or Incident Supplemental, change Status/Records Disposition codes, or update a Case Management record.

D. Purging Files

- (1) When an investigation has been assigned one of the "Closed" statuses listed in section 3.A of this order, all relevant investigative information has been properly supplemented or updated, and all pertinent documents have been scanned and inserted into the RMS Incident module using the "Doc" viewer, any other documents or digital files should normally be destroyed by shredding or deleting.
 - This is not intended to preclude retention of bureau files at the direction of the bureau commander.
- (2) Audio-recorded interviews of suspects, witnesses, or victims **will not** be destroyed; they will be impounded even if they have been transcribed (see Operations Order 8.1, Evidence, Impounding, and Property).

E. Reassignment of IRs/Evidence

- (1) Reassignment of individual IRs to another unit will require the unit supervisor's approval.
 - Supervisors must review a copy of the report prior to the reassignment, notify the gaining unit's supervisor, and update the Case Management record regarding the reassignment and notification under the "Reviews" tab.
- (2) Upon transferring out of a unit, an investigator's IR assignments will remain with the unit he/she is leaving. Exceptions will require the approval of the gaining unit lieutenant.
- (3) Evidence **will not** be linked to any other IRs without first receiving approval from the supervisor of the initially assigned investigative detail.
 - Employees must indicate the reason for creating the link by updating the Case Management record under the "Reviews" tab.
 - The supervisor must also update the Case Management record reference the approval of the creation of the link under the "Reviews" tab.

6. INVESTIGATIVE FOLLOW-UP

- A. The assigned investigator will ensure the "Offense Code/s" for each IR/Incident Supplement reflects, as closely as possible, the actual incident under investigation.
- B. All attempts made to identify suspect/s, witnesses, and/or investigative leads, or for other follow-up, will be documented in the Case Management record and/or an IR or Incident Supplement.
- C. For incidents with multiple offenses, the primary investigative group may request secondary investigative group/s to investigate offenses requiring specialized skills, knowledge, and abilities.
 - Each investigative group may create and link Case Management records for the purpose of tracking and documentation.

INVESTIGATION MANAGEMENT	Operations Order 4.45
PHOENIX POLICE DEPARTMENT	Rev. 10/15

6. D. Priorities - The volume of IRs processed by investigative units necessitates the establishment of investigative priorities.

(1) These priorities are a general guideline and are not intended to restrict the investigator's sound judgment in the handling of all IRs.

(a) PRIORITY 1 Suspect in Jail	<ul style="list-style-type: none"> When a suspect has been booked, the IR will be handled as a top priority. The initial investigator or patrol officer will ensure the investigation and documentation are sufficient for a criminal complaint. The Court Liaison Detail will present all available reports to the City or County Prosecutor. If the IR is insufficient for a criminal complaint to be filed, the Court Liaison will notify the appropriate unit supervisor.
(b) PRIORITY 2 Missing Person (Involuntary/Endangered) Known Suspects (Serial/Violent)	<ul style="list-style-type: none"> Missing persons classified in an involuntary and/or endangered status will be treated as a Priority 2 unless circumstances warrant a Priority 1 status.
(c) PRIORITY 3 Suspect Known	<ul style="list-style-type: none"> The suspect has been identified, but the IR requires more work.
(d) PRIORITY 4 County Attorney or Other Agency Furthers	<ul style="list-style-type: none"> IRs which have been returned by the County Attorney, City Prosecutor, or other agency requiring additional follow-up.
(e) PRIORITY 5 No Suspects/Workable Leads	<ul style="list-style-type: none"> IRs which do not have known suspects, but there are promising investigative leads.
(f) PRIORITY 6 Non-Crime Reports	<ul style="list-style-type: none"> An "Offense Code" of <i>FI-Field Interview</i> will be used to document incidents that are informational only (no crime committed). This type of report may become reclassified as a criminal matter.

E. Time Limits

- (1) The nature of the offense and circumstances will be considered; follow-up will be initiated as promptly as investigative load or detail permits.
- (2) All Priority 1 and Priority 2 IRs will have follow-up initiated within five (5) working days and documented in an Incident Supplement within 20 days of the actual follow-up (see section 5.B.(2)(b) of this order for more information).
- (3) Priority 3 through Priority 5 IRs will have follow-up initiated within 10 working days after receipt and will normally be supplemented within 30 calendar days after receipt by the investigator.
- (4) Inability to meet time limits will be explained to a supervisor, who will ensure proper handling of the investigation.

F. Solvability Potential

- (1) Investigators will be responsible for screening assigned IRs for solvability potential.
- (2) The following factors should be taken into consideration during IR screening and determination of an investigation's status:
 - Suspects known, arrested, or cited in lieu of detention (CLD)
 - Identifiable suspect vehicle and/or license plate number
 - Identifiable suspect description

INVESTIGATION MANAGEMENT	Operations Order 4.45

- When the seriousness or public sensitivity of a case would warrant immediate follow-up

7. **SUBMISSION FOR COMPLAINT**

- A. All cleared IRs will be properly prepared, including the necessary elements of the offense, arrest/booking/Arizona Traffic and Ticket Complaint (ATTC) numbers, and any other criteria set by the filing bureau, city, or county.

 - Any additional appeals on an IR turned down by the Maricopa County Attorney's Office will be handled by the unit supervisor.
 - * The unit supervisor will forward the appeals to the group supervisor at the Maricopa County Attorney's Office.

PHOENIX POLICE DEPARTMENT	Rev. 10/15

7. C. (6) Any additional information will be supplied by completing an Incident Supplement.

NOTE: Investigators **will not** respond to “Turndowns” by writing on any forms provided by the prosecuting authority.

- (7) When an IR has been turned down but is going to be resubmitted, the “Turndown”, pertinent IRs, Incident Supplements, and any Booking forms will be reviewed by the unit supervisor prior to submitting to the Court Liaison Detail for re-filing.
- (8) All IRs where the investigator was responsible for requesting charges and the prosecutor declines to prosecute, or causes to be dismissed, will be reviewed by the unit lieutenant or designated supervisor.
- (9) Unit lieutenants will initiate appropriate corrective action or training to be conducted, when IRs are turned down due to alleged mishandling by the Department, for example:
 - Conducting an unlawful search

- (3) The assigned investigator’s designated supervisor will initiate a Workflow to the investigator regarding the “Further.”
- (4) The investigator will provide the necessary information by completing an Incident Supplement and submitting the Incident Supplement for supervisor review and approval.
 - Investigators will answer the attorney’s questions as though the information requested was part of the original information supplied.
 - The investigator will not refer to the fact that the attorney has requested further information, nor will the investigator refer to questions to be answered by the numbers assigned by the attorney
 - When applicable, the Incident supplement will indicate why the requested information is not able to be provided.

NOTE: Investigators **will not** respond to “Furthers” by writing on any forms provided by the prosecuting authority.

INVESTIGATION MANAGEMENT	Operations Order 4.45
PHOENIX POLICE DEPARTMENT	Rev. 10/15

7. D. (5) Some “Further”s can only be answered by the initial reporting officer/s.
- In these incidents, the “Further” will be routed to either the reporting officer/s or their supervisor for the appropriate response.
- (6) If an Incident Supplement has not been submitted within 30 days of receipt of the “Further”, the investigator will notify the unit supervisor with an explanation.
- (7) Once the Incident Supplement is approved by a supervisor, the investigator will generate a Workflow to the Court Liaison Detail indicating the “Further” is ready for re-submittal to the prosecuting authority.

8. CLEARANCE PROCEDURES

- A. Clearance information will be updated by completing an Incident Supplement ensuring the appropriate “Clearance Disposition” and “Cleared by Exception” are selected from the drop-down boxes in the Incident Heading section.

NOTE: The “Investigation Status” of the Case Management record linked to the IR should be set to *Inactive*.

- B. Investigator’s developing information that would normally clear an IR which is assigned to another unit will make contact with the assigned investigator and/or complete an Incident Supplement with the details.

- Upon receiving the Incident Supplement or information, the assigned investigator will initiate a closing supplement or if required, initiate a Workflow to the Court Liaison Detail for submittal for prosecution.

C. Disposition Codes and Rules for the Clearance of an Offense:

(1) Cleared by Arrest (CBA)	<ul style="list-style-type: none"> • An offense is “CBA” (or solved for crime reporting purposes) when at least one person is arrested or a complaint, warrant, or summons is issued. • Arrested, for crime reporting purposes, means booking a defendant into jail, issuing a defendant a criminal ATTC (by the police or City Prosecutor), or referring a juvenile to JCC with a Juvenile Arrest/Referral Worksheet form.
(2) Cleared by Exception	<p>An offense is “Cleared by Exception” when the following four questions can be answered “yes”, and is approved by a supervisor:</p> <ul style="list-style-type: none"> • Has the investigation definitely established the identity of the offender? • Is there enough information to support an arrest, charge, and turn over to the court for prosecution? • Is the exact location of the offender known so the subject could be taken into custody now? • Is there some reason, outside of police control, that stops you from arresting, charging, and prosecuting the offender? <p>* “Turndowns” from the appropriate prosecuting authority may justify a “Cleared by Exception” Disposition.</p> <p>NOTE: Supervisor approval is necessary to “Clear by Exception” a “Turndown”.</p>
(3) Unfounded	<ul style="list-style-type: none"> • When the Department’s subsequent investigation shows the complaint brought by a citizen was FALSE or BASELESS, the offense may be “Unfounded”. • The Incident Supplement to “Unfound” the report should clearly state the reason/s for reclassification, and should disprove the crime occurred. • An offense cannot be “Unfounded” because the complainant will not prosecute.

INVESTIGATION MANAGEMENT	Operations Order 4.45
PHOENIX POLICE DEPARTMENT	Rev. 10/15

Reasonable Suspicion	Facts and circumstances, and any rational inferences therefrom, that would lead a reasonable and prudent officer to believe crime is/was afoot (has been, is being, or is about to be committed); the officer need not know the exact nature of the crime; an officer may stop or detain a person based on reasonable suspicion, but may not arrest or search absent probable cause or reasonable suspicion the detained person is armed and dangerous
G. Stop/Lawful Detention	A temporary detention of a person for investigation (a temporary detention is considered a seizure of a person and is, therefore, governed by the Fourth Amendment); a stop occurs when a reasonable person under the circumstances would believe that he/she is not free to go; a stop must be based on at least reasonable suspicion; a person is stopped when such person submits to a show of authority or physical force.

4. **ARRESTS**

- A. **ALL** arrested persons (adults and juveniles whether booked/detained **or** cited in lieu of detention (**CLD'd**)/referred and released) regardless of lawful status in the U.S., race, color, national origin, or presumptive ID, **shall** have their immigration status verified by the federal government.
- Presentation by the arrestee of presumptive ID **does not** meet the requirement to verify immigration status under state law.
 - (1) Officers **must not** detain a person solely for determining immigration status longer than completion of the original stop/detention (once the purpose for the original stop/detention is complete or the ATTC/juvenile referral is complete, officers cannot continue detaining the person to verify immigration status).
 - (2) If booking an adult, jail personnel will verify immigration status.
 - (3) If issuing a CLD to an adult or for all arrested juveniles [CLD'd, referred and released for a crime, or detained at the Juvenile Court Center (JCC)], the officer **must first** contact the VCB desk sergeant, at (602) 262-6147, for approval to contact ICE.
 - If the VCB sergeant is not available, officers must contact an on-duty sergeant for approval.
 - Any contact with ICE **must be** documented by VCB desk personnel who will collect immigration related data

5. **LAWFUL DETENTION AND REASONABLE SUSPICION OF AN IMMIGRATION VIOLATION**

- A. If a person is detained for a violation of any law and during this detention an officer develops reasonable suspicion the detained person is unlawfully present in the U.S., the officer shall make a reasonable attempt to contact ICE and verify the person's immigration status (ARS 11-1051.B).
- Officers **must not** hold a person for longer than the purpose of the original stop to verify immigration status.
- B. There are three **EXCEPTIONS** when it is **NOT** necessary to contact ICE to verify immigration status for persons lawfully stopped/detained and there is reasonable suspicion the person is unlawfully present in the U.S:
- (1) When it is not practicable
 - For example: work load, criticality of incident and other present duties, available personnel on scene, location, available back-up, and ability to contact ICE.
 - (2) When the determination may hinder or obstruct an investigation
 - The officer should consider when or whether to investigate immigration status in light of the need for suspect, victim, and witness cooperation in an investigation.

IMMIGRATION PROCEDURES	Operations Order 4.48
PHOENIX POLICE DEPARTMENT	Rev. 07/17 PAGE 4

5. B. (2) (Continued)

- * This consideration is not limited to the investigation for which the person has been detained, such as domestic violence investigations, complex investigations of money laundering, human trafficking, and drug smuggling, which may require significant cooperation of those involved.

(3) When the person provides presumptive identification

- See section 3.C of this order for a list of presumptive identification.

6. **DOCUMENTATION**

- Any contact with ICE **must be** documented by VCB desk personnel who will collect immigration related data.

7. **CONTACT WITH ICE**

A. When officers contact ICE at any time and ICE advises there are federal charges, officers must ask if the charges are **federal criminal** charges or **federal civil** charges.

- State and local officers have no authority to enforce **federal civil** immigration violations.
- A legal advisor will be on-call 24/7 for immigration related questions

B. Federal Civil Charges

(1) When ICE advises there are only **federal civil** charges and there are **NO state and/or local** charges, refer to the below procedures:

- (a) The officer may not extend a stop/detention based upon the federal civil charges.
- (b) The officer will not extend the stop/detention to wait for ICE to respond.
- (c) Officers will not transport the person based solely upon a federal civil violation without the person's consent.
- (d) If the person has been stopped/detained, he/she must be released after the initial investigation is complete unless the officer has developed additional reasonable suspicion to detain the person to investigate a violation of criminal activity.

(2) If there is a **federal civil** charge and the person **is under arrest for a state and/or local** charge/s:

- The person will be booked into jail on the state and/or local charge/s.
 - * A HOLD for the federal charge will be placed on the person for ICE or other appropriate federal agency.

C. Federal Criminal Charges

(1) When ICE advises there are **federal criminal** charges and there are **NO state and/or local charges**, refer to the below procedures:

- The officer shall determine whether ICE will respond to take the person into custody or whether the officer should arrest the person and transport to ICE or a local, state, or federal jail facility.

IMMIGRATION PROCEDURES	Operations Order 4.48
PHOENIX POLICE DEPARTMENT	Rev. 12/17 PAGE 5

7. C. (2) If there is a federal criminal charge and the person is under arrest for a state and/or local charge/s:

- Follow the procedures as outlined above in section 7.B.(2) of this order.

D. ICE Is Unable To Determine Federal Civil or Criminal Charges

- (1) If ICE is unable to verify whether the federal charge is civil or criminal, then the charge will be treated as civil.
- (a) If there are NO state and/or local charges, the procedures outlined above in section 7.B.(1) of this order will be followed.
 - (b) If the person is under arrest for state and/or local charges, the procedures outlined above in section 7.B.(2) of this order will be followed.

8. DETENTION AND REMOVAL ORDER (DRO) HOLDS

- A. The Detention and Removal Office (DRO) is a unit of ICE that has the responsibility of detaining and transporting undocumented persons apprehended by ICE, Customs and Border Protection (CBP), or local law enforcement.
- B. Once ICE has determined a person is unlawfully present in the U.S., ICE will issue a DRO hold, which can be for criminal or civil violations.
- This hold will be similar to a hit from a warrant when a person's information is run through the National Crime Information Center (NCIC).
- C. If an officer receives a DRO notification from ICE, he/she must call the phone number on the DRO notification to determine whether the DRO hold is criminal or civil.

9. DROP HOUSES, HUMAN SMUGGLING, AND LOAD VEHICLES

- A. ICE is responsible for the investigation of any federal crimes involving human smuggling and the Department will investigate any state crimes against the victims.
- (1) A patrol supervisor will respond to the scene and contact the Violent Crimes Bureau (VCB) desk sergeant to provide a detailed account of the situation.
 - (2) The VCB desk sergeant will determine if the situation requires contacting ICE.
 - If the situation requires contacting ICE, the VCB desk sergeant will contact them and provide a detailed account of the circumstances.
 - (3) The VCB desk sergeant will also contact the appropriate investigative detail/s (Assaults, Home Invasion Kidnapping Enforcement (HIKE), Homicide, Sex Crimes, etc.), who will determine if there is a need for a detective response.
 - If detectives do not respond, patrol will have disposition.
 - (4) The VCB desk sergeant will advise the patrol supervisor of a response by ICE and/or other investigative detail.

NOTE: Officers must not hold victims for a response by ICE absent a criminal immigration violation/investigation verified by ICE.

- (5) The VCB desk sergeant must be notified of the disposition of the investigation for the collection of data and information and will document each reported incident along with the response by ICE.

 - This record is known as the Deported Felon File which is located in the NCIC Immigration Violator File.
- B. The Immigration Violator File contains the following additional categories:
 - (1) The ICE Absconder category, which contains the records for individuals with an outstanding administrative warrant of removal from the U.S. who have unlawfully remained in the U.S.
 - (2) The ICE National Security Entry/Exit Registration System (NSEERS) category, which contains the records for individuals whom the Department of Homeland Security (DHS) and ICE have determined have violated registration requirements for entry into the U.S.
 - (a) The NCIC query results will advise whether the information displayed is an Administrative Warrant hit or a Deported Felon File hit.
 - (b) Police officers **must not** take enforcement action on Administrative Warrants or NSEERS hits as these are civil federal matters.
- C. If there are **local charges** along with a **Deported Felon File notification**, follow the procedures as outlined in section 7.B.(2) of this order.
- D. If an officer runs a person who is the subject of a **Deported Felon File notification**, and there are **NO local charges**, the following steps will be taken:
 - (1) Verify through physical description (scars, marks, tattoos, etc.), admission, or other available information, the person on the hit is the same person.
 - (2) Contact the ICE Law Enforcement Service Center in Vermont through the communications dispatcher or call directly using the phone number listed for immediate notification confirmation.
 - (3) Once the hit has been confirmed, officers will positively identify the subject through LiveScan or fingerprint the individual and fax the fingerprints to ICE.
 - (4) After the subject has been positively identified, the ICE Law Enforcement Agency Response (LEAR) Unit (or other local ICE office) may be contacted at 602-379-3235 for pick-up and disposition of the subject.
 - Officers may also take the subject to the ICE Detention and Removal Office at 2035 North Central Avenue for subject turnover to an ICE agent.

1. PURPOSE

- To establish guidelines for the use and management of body-worn video technology provided by the Department
 - * The use of body-worn cameras (BWCs) for any purpose other than in accordance with this policy is prohibited.

2. DEFINITIONS

A. Body-Worn Camera (BWC)	<ul style="list-style-type: none">• An audio/video recording system used to document police related activities
B. User	<ul style="list-style-type: none">• An employee who has been issued a BWC and received Department approved BWC training
C. Categorizing	<ul style="list-style-type: none">• A method to identify/classify a body-worn camera recording for a specific purpose and time

G. Mute Function	<ul style="list-style-type: none">• Eliminates audio while still capturing video

3. GENERAL INFORMATION

- A. Body-worn video technology facilitates the Department's objectives to collect evidence for criminal prosecutions, ensures both officer and citizen accountability, provides administrative inspection functions, and has the potential to provide a valuable training aid by allowing for the evaluation of officer safety and tactics.
- B. Training - Employees will receive requisite training commensurate with the level of participation (user, detective, administrator, etc.).
 - Videos may be used for training purposes if the training course and content are approved by an assistant chief (video/s will be handled in accordance with Operations Order 4.6, Release of Records)
- C. Equipment - The BWC and related equipment will be issued at the Police Chief's discretion and will remain in the user's possession.
 - (1) Users shall not alter (including the color of the camera), remove, dismantle, or tamper with any BWC hardware or software component.
 - (2) Only BWCs issued by the Department will be utilized.
- D. Users will wear the BWC anytime they may become involved in any enforcement activity while on duty in patrol or working off-duty, extra-duty, or in any other uniformed assignment, or as otherwise specified in this order.
- E. Although Arizona is a "one party consent" state and there is no requirement to inform other parties they are being recorded, users are encouraged to make the presence and activation of the body-worn camera known when it is practical to do so (existing research indicates such an advisement can have a civilizing effect, leading to the safe resolution of the matter at hand).
- F. Video obtained from a BWC may not depict everything in a user's field of vision at the time of an incident and everything depicted in the video may not have been observed by the user at the time of the incident.

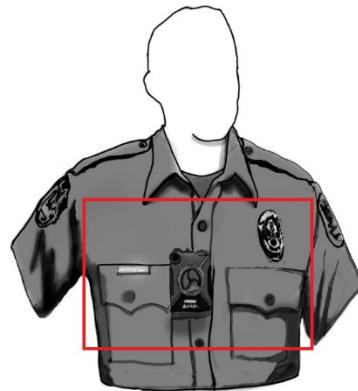

3. G. BWC technology, policy, operations, and law continue to evolve; therefore, the Body-Worn Camera Unit is responsible for monitoring these areas and ensuring policy is updated accordingly.

4. OPERATIONAL GUIDELINES

A. Equipment Inspection - Prior to use each shift, users will:

- Ensure their BWC is adequately charged.
- Inspect the BWC and accessories to ensure there is no visible damage and the device is in good working order.
 - * Any visible damage or concerns about the functionality of the equipment will be brought to the attention of the user's/employee's immediate supervisor as soon as it is practical to do so.

B. BWC Placement - The BWC must be worn on the front of the duty uniform/shirt, in the middle torso area, in a manner that maximizes the video capture area of the camera (see below diagram for correct BWC placement).

C. Audio/Video Recording Requirements

(1) Patrol Users (to include when working off-duty or extra-duty)

(a) Prior to going 10-8 (in service), users will turn their BWCs on to activate the Pre-Event Buffer Mode.

NOTE: When the camera is not in the Event Mode (recording), it must remain on/in the Pre-Event Buffer Mode during the shift.

(b) Users must activate the **Event Mode** upon receiving a call for service and/or prior to engaging in any investigative or enforcement contact, such as, but not limited to:

- Vehicle stops
- Pedestrian stops
- Consensual encounters that are investigative in nature
- Radio calls for service
- On-view events requiring enforcement activity
- Official suspect and witness statements and interviews
- Vehicle and foot pursuits

NOTE: This requirement is not intended to be punitive in those situations where a reasonable justification can be made for the non-activation of a camera (user must take unforeseeable and rapid on-view enforcement action, user is randomly assaulted, etc.)

(ii) Immediately upon completion of the muted conversation, officers will deactivate the mute function and return to audio recording.

(d) Return to Pre-Event Mode - The Event Mode shall be deactivated upon the completion of the event or the user leaves the scene [the completion of the event is when activities such as those listed above in section 4.C.(1)(b) have ended, or those activities have transitioned into a non-investigative crime scene security or traffic control (homicide scenes, traffic fatalities, etc.)].

NOTE: Users shall verbally record the reason for the deactivation prior to the deactivation ("Call has ended, I'm deactivating", "I'm deactivating while I wait for a tow," "I'm deactivating while I direct traffic," etc.).

(e) BWC Deactivation – BWCs may be deactivated (powered off via the power switch) in select situations upon approval of an on-duty supervisor; examples include, but are not limited to:

- Court proceedings
- Hospitals
- Crime scene briefings

NOTE: At the conclusion of the select situation, users will turn their BWCs back on to reactivate the Pre-Event Buffer Mode.

(2) Specialty Details - Users will turn their BWC on (Pre-Event Buffer Mode) and/or activate the Event Mode as outlined in the appropriate sections below.

(a) Community Action Officer (CAO) - Users will adhere to the patrol audio/video recording requirements listed above in section 4.C.(1).

NOTE: During community meetings or special events, the Event Mode only needs to be activated when the user needs to engage in any investigative or enforcement contact.

- While operating in a plain clothes capacity, users will:
 - * Ensure the BWC is attached to an outer vest carrier consistent with section 4.B. above.
 - * When enforcement action or investigative contact is imminent (see examples in section 4.C.(1)(b) above), users will don their vest, ensure the BWC is turned on and the Event Mode activated prior to contact, when practical.
 - * During prolonged surveillance operations, users may leave the BWC powered off to conserve battery life.
- Users will ensure the BWC is turned on and the Event Mode activated when it is in the best interest of the community and/or Department.

- Users will ensure the BWC is turned on and the Event Mode activated when it is in the best interest of the community and/or Department.

(3) Users may deviate from the activation directive if it is in the best interest of the Department and they are able to justify the deviation: for example, contact with victims of a crime where the details of the crime are sensitive in nature or interaction with citizens who wish to remain anonymous.

NOTE: The reason/s for the deviation must be documented in an Incident Report (IR)/Field Interview (FI).

(4) User's may review captured video to refresh their memory prior to completing required reports, preparing for court proceedings, etc.

- Employees may view video that is not their own if there is an investigative reason to do so.

EXCEPTION: An employee who is involved in a serious incident and/or the subject of an ongoing criminal investigation, including an officer involved shooting or in-custody death, will not access or view BWC video relating to the serious incident and/or criminal investigation until the video is released by the criminal investigators (see Operations Order 3.1, Serious Incident Policy, for more information regarding serious incidents).

BODY-WORN VIDEO TECHNOLOGY	Operations Order 4.49
PHOENIX POLICE DEPARTMENT	Rev. 03/20 PAGE 5

4. C. (5) Upon completion of the user's shift, all captured data will be impounded (see section 6 of this order for impounding procedures).

- Users must properly categorize each video file within **10** days of the video creation by ensuring the corresponding radio code and incident number are assigned to each video file.

5. **PROHIBITED RECORDING**

A. Users will not:

- (1) Knowingly activate the BWC in a place where a reasonable expectation of privacy exists, such as precinct locker rooms and restrooms.

 - If multiple supervisors are notified of a PGP incident, the on-duty lieutenant will be responsible for coordinating the BWC video review.
 - If a supervisor is on scene during a PGP incident, a BWC video review is not necessary.
 - A supervisor's BWC video review of a user/employee assigned to their squad who is involved in a PGP incident satisfies the above requirement of the weekly video review.

- C. When a frontage road is not present, DPS will take jurisdiction on accidents occurring on the freeway and on/off ramps, but not on overpasses and underpasses.
- D. When a disagreement arises regarding jurisdiction, Department employees will conduct the necessary investigations (there is concurrent jurisdiction under state law).

12. **UNLAWFUL SOLICITATION OF TORT VICTIM** - [**ARS 13-2924**](#) makes it a class 1 misdemeanor to solicit a tort victim at the scene of any accident.

TOWING AND WRECKERS	Operations Order 6.6
PHOENIX POLICE DEPARTMENT	Rev. 10/15

1. AUTHORIZED WRECKERS

A. Authorized wreckers are either:

- (1) Contract Wreckers - Wreckers owned by towing companies that have been awarded towing contracts by the City.
- (2) Citizen-Initiated Wreckers - Wreckers that are present at an accident scene at the specific request of a driver/owner of one of the involved vehicles.

NOTE: The term "wrecker" is synonymous with "tow truck."

B. Specific Wrecker Information

(1) Contract Wreckers	<ul style="list-style-type: none"> • The authorized towing contractors (list wreckers) have exclusive rights for <u>police requested</u> towing within their respective precincts, and will be the only wreckers <u>dispatched</u> by the Department. • An Information Channel may be contacted for current information on authorized wreckers. • Wreckers should not be called before they are needed. • The employee will describe to the communications operator the size or type of vehicle, as well as any special circumstances, such as vehicle stuck in a ditch, to allow the contractor to determine the type of wrecker needed. • Each contractor is responsible for towing throughout a given precinct and is required to maintain a 20-minute response time for light duty vehicles (gross vehicle weight rating (GVWR) under 10,000 pounds) and less than 30 minutes for medium and heavy duty vehicles (GVWR over 10,000 pounds). <ul style="list-style-type: none"> * When employees experience unsatisfactory wrecker service other than poor response time, employees should submit an email to Impound@phoenix.gov, explaining the issue. • To comply with Arizona Revised Statute (ARS 28-872), employees must provide a Vehicle Removal Report (VRR) Form 80-583D to the tow truck driver at the time a vehicle, or obstruction in the roadway, is removed. See sections 5.B and C of this order for required procedures on ALL police requested tows. <p><u>Wrecker Bill</u></p> <ul style="list-style-type: none"> • Required when a: <ul style="list-style-type: none"> * Department owned or operated vehicle is towed (the employee will sign the wrecker bill and list the employee's serial number, vehicle number, and destination of the vehicle). * Tow is cancelled (the employee will mark the wrecker bill as a "dry run" and sign the wrecker bill). • A VRR form is not necessary • The wrecker driver will retain all copies of the bill.
(2) Citizen-Initiated Wreckers	<ul style="list-style-type: none"> • Employees may request <u>non-contract or specific</u> wreckers via police communications at the request of a driver/owner of an involved vehicle. • The Communications Bureau will attempt to comply by contacting the requested wrecker company. • If the Communications Bureau is unable to contact the requested wrecker company, drivers/owners will be so advised and may make their own towing arrangements (providing traffic is not blocked). • If this is not possible, an authorized contract wrecker will be dispatched. • Requests from citizens for wreckers with a base operation in another jurisdiction will be honored only if the vehicle is not blocking traffic or if it can be moved from the roadway without a wrecker.

TOWING AND WRECKERS	Operations Order 6.6
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 2

1. B. Specific Wrecker Information (Continued)

(2) Citizen-Initiated Wreckers (Continued)	<ul style="list-style-type: none"> The requesting person will be responsible for remaining with the vehicle until the wrecker arrives. A wrecker under contract to a particular repair agency will be permitted to tow vehicles when a specific request is made for such a company to store or repair a vehicle. Employees will not recommend any wrecker or body repair shop, nor will they allow themselves to become involved in selecting a location to which a disabled vehicle will be taken.
--	--

2. **ENFORCEMENT POLICY** - The operation of tow trucks in Arizona is governed by the Department of Public Safety (DPS) [Tow Truck Regulations](#) in accordance with [Arizona Revised Statute \(ARS\) 28-1108](#).

- A tow truck is defined as a motor vehicle that is altered or designed for use in the business of towing vehicles by means of a flatbed or other specially designed truck that is equipped with a tow sling, tow bar, tow plate, or wheel lift apparatus attached to the rear of the truck, or a crane or hoist that is attached to the bed or frame of the tow truck.

A. Permits and Decals

- (1) All tow trucks operated on public roadways must pass an inspection by DPS before being issued a permit to operate.
 - (a) Permits are filed by company name.
 - (b) One copy of the permit is given to the applicant along with a decal.
 - The decal must be displayed in the lower right corner of the front windshield of the tow truck.
 - The month and year in which the permit expires will be punched out.
- (2) Tow truck operators may be cited under ARS 28-1108.D when they are observed towing a vehicle without a current permit.

B. Tow Truck Equipment

- (1) Each tow truck shall display the company name and ten digit telephone number and the full name of the town or city in which the company is located, on both sides of the truck.
 - (a) The letters or numbers shall contrast sharply in color with the background on which the letters are placed, be readily legible during daylight hours from a distance of 50 feet while the tow truck is stationary, and be maintained in a manner that retains the legibility.
 - (b) Magnetic signs are acceptable, but they must be in place while a vehicle is being towed.
 - When a tow truck without proper lettering is observed towing a vehicle, a Field Interview (FI) will be completed with "Code Enforcement" selected as "Offense Element 1" for proper routing.
 - Pertinent information about the driver, tow truck, and vehicle in tow will be included in the FI.
- (2) Tow truck operators must affix two taillights, two stop lights, and two signal lights to the rear-most vehicle of any train of vehicles towed or operated on any street or highway (ARS 28-925(A), 28-927, and 28-939).

3. **UNAUTHORIZED WRECKERS**

- A. Unauthorized wreckers that appear at an accident will not be allowed to solicit business from anyone involved in the accident.
- (1) They may be used to clear a scene if traffic conditions preclude waiting for an authorized wrecker and the unauthorized wrecker driver volunteers the service.
 - (2) The investigator will advise the unauthorized wrecker driver that the investigator can neither authorize compensation nor allow the unauthorized wrecker to drive towed vehicles from the scene.
- B. An FI will be completed with "Code Enforcement" selected as "Offense Element 1" when one of the following applies:
- An unauthorized wrecker driver solicits business at an accident scene
 - An unauthorized wrecker driver clears an accident scene

4. **CLEARING WRECKAGE**

- A. Although the first priority at an accident scene is checking for injuries and rendering aid, employees should try to remove wreckage and debris from streets as quickly as possible to clear the scene.
- B. Police vehicles equipped with push bars will move disabled vehicles off the traveled portion of the roadway only when it can be done safely.
- C. Employees need to remember they may need to preserve the scene on serious injury accidents for evidence purposes.
- D. When an accident scene cannot be cleared for a lengthy period of time, wreckers will not be requested until the investigator is ready to release the vehicle.

NOTE: When an emergency exists and a vehicle must be moved for safety purposes prior to the arrival of the investigating officer or team, a wrecker may be requested immediately.

TOWING AND WRECKERS	Operations Order 6.6
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 4

4. E. Prior to their departure from an accident scene, wrecker operators are required to remove all debris as part of the contract and in accordance with [ARS 28-898.C](#).
- (1) Employees will provide necessary traffic control to ensure the safety of the wrecker operator.
 - (2) If wreckers are not utilized, the Street Transportation Department will be notified to clear debris.

5. **IMPOUNDS AND TOWS**

- A. Towed vehicles are defined as either:

- (1) **Private Tows** - Anytime a vehicle is transported to any location by a non-contract wrecker.
 - Employees **will not** sign the wrecker bill.
- (2) **Police Requested Tows** - **Anytime** a vehicle is transported **by a contract wrecker**.
 - (a) Examples of police requested tows:
 - Removing inoperable vehicles disabled in the roadway or involved in a collision
 - Securing abandoned or recovered stolen vehicles
 - Enforcing parking ordinances and impounding vehicles involved in specific statutory violations

NOTE: All police requested tows require a supervisor's approval.

- (b) Owner/operators of vehicles involved in a collision or disabled in the roadway may request their vehicle be taken to a location other than a contract wrecker storage lot, such as a residence or auto shop.
 - Vehicle owner/operators must make arrangements with the contract wrecker to pay all towing fees at the time the vehicle is released.
 - Employees **will** provide the tow truck driver with a VRR documenting in the "Officer Notes" that the vehicle is being taken to a location other than a contract wrecker storage lot at the driver's request (see sections 5.C.(2) and (3) of this order for more information on completing the VRR and documenting the tow).

B. Police Requested Vehicle Tow/Impound Procedures

- (2) A **Notice of Right to Hearing** Form 80-43D (English) or 80-43.2D (Spanish) will be given to the driver or left in the vehicle of **every** police requested tow except for vehicles being impounded as evidence, such as vehicles subject to seizure for forfeiture or involved in a fatal collision.
- (3) Employees **will** ensure police requested tows are properly documented and provide the tow truck driver with a copy of the VRR form by following the procedures outlined below in section 5.C of this order.

TOWING AND WRECKERS	Operations Order 6.6
PHOENIX POLICE DEPARTMENT	Rev. 10/15 PAGE 5

5. B. (3) (Continued)

NOTE: When listing the statutory authority used to tow/impound the vehicle (ARS or PCC), officers will use a PCC, in lieu of an ARS code, whenever possible; for example:

- [PCC 36-136](#), impeding traffic (for accident hazards or safekeeping when a driver is arrested and his/her unattended vehicle is obstructing the roadway) instead of [ARS 28-871](#), stopping, standing, or parking prohibited.

C. Documenting Police Requested Towed/Impounded Vehicles

(1) Prior to towing/impounding a vehicle, regardless of whether or if not already assigned to a call, employees will create a 511T radio call for the time and location of the tow.

(a) Employees with access to a Mobile Data Computer (MDC) will create the 511T call using the MDC.

(b) Employees without access to an MDC will contact their respective radio Information Channel and request the 511T call be created.

 - Felony prisoners
 - Belligerent or combative prisoners
 - Verbally abusive prisoners who are likely to become combative
 - Prisoners who are likely to cause injury to themselves or others
 - Any other prisoners the officer feels necessary to restrain

 - As a general rule, handcuffs should easily move up and down the wrist while tight enough to avoid sliding over the hands.
 - Handcuffs will always be double-locked before placing a subject in a vehicle.
 - When suspects complain of handcuff tightness, officers will check them immediately.

(2) Prisoners Handcuffed for More Than One Hour

- (a) If a prisoner is handcuffed for more than one (1) hour, consideration will be given to bringing the handcuffs from behind the suspect's back to the front.
 - Discretion of the officer and common sense should be the deciding factors.
- (b) Officers may use one of the following options:
 - Utilize the RIPP™ restraining device or leg irons.
 - Secure one of the prisoner's wrists to the fixed restraining device (detention ring) within the holding cells.

(3) Physically Compromised Prisoners

5. E. (2) Handling Biological/Biohazard Materials

- (a) Items possibly containing biological evidence should be considered a potential biohazard and must be handled carefully to prevent contamination and decomposition.

- Disposable nitrile or latex gloves will be worn at all times and other proper personal protective equipment (PPE) will be used in accordance with Operations Order 4.9, Communicable Disease Control Plan.

- (b) Proper decontamination procedures will be followed in accordance with Operations Order 4.9, Communicable Disease Control.

(3) Collecting Biological Evidence

- (a) To prevent cross contamination, **each** biological evidence item, including controls, will be packaged separately and in accordance with section 4.B of this order.

- Biological evidence that also needs arson analysis should be packaged according to section 5.M of this order.

- (b) All items with biological evidence should be collected at the scene and packaged unless the items are large or immobile.

- Large or immobile items should have the biological evidence collected from the item at the scene.

- * Cutting of the stain should occur if the stain is absorbed into the item, such as the cutting of a possible stain from carpet.

- * Swabbing of the stain should occur if the stain is on a non-porous surface, such as a wet swab of a possible blood stain on a piece of glass, or wet and dry swabs off of a steering wheel.

- * Contact CSRU if clarification/further instructions are needed.

- (c) Blood obtained from a victim or suspect for analysis (10 ml is ideal with a minimum 2 ml required) must be placed in color-coded vials or tubes which are available at hospitals or from a DUI blood evidence collection kit/box (the color-coded caps on blood vials/tubes are standard for all laboratories in the United States).

- Blood for **alcohol/drugs** and toxic vapor analysis must be drawn into a **gray-topped tube**.

- Blood for **DNA** (deoxyribonucleic acid) analysis must be drawn into a **purple-topped tube**.

- If possible, serum tubes will not be used for alcohol/drugs or DNA analysis and are unacceptable for toxic vapor analysis.

- Parafilm sealed tubes from medical draws are unacceptable.

- All vials/tubes and outer packaging will be properly sealed and clearly marked with the IR number and the name of the suspect/victim.

- (d) Urine obtained for analysis (30 ml is ideal with a minimum 5 ml required) must be placed in a standard urine vial obtained at a hospital or from a DUI urine evidence collection kit/box.

- All vials and outer packaging will be properly sealed and clearly marked with the IR number and the name of the suspect/victim.

5. E. (4) In order to preserve the characteristics of biological evidence, proper storage is necessary.

- Dried porous evidence, such as clothing, swabs, or fabric, or food items with possible biological material present, should be stored in frozen storage.
- Dried non-porous evidence, such as baseball bats, firearms, or leather shoes, with possible biological material present, should be stored at room temperature.
- Blood vials/tubes and urine vials must be stored in refrigerated storage.

(5) Preparing Biological Evidence for Impound

- (a) Items containing wet/damp/moist biological evidence **MUST** be air dried, as soon as possible, at the Evidence Drying Facility located at 621 W. Washington, prior to impounding for frozen storage (see section 6 of this order for information on drying procedures).

EXCEPTION: Fecal matter or items containing liquid biological evidence, such as used condoms, should **NOT** be dried prior to impounding/frozen storage.

- (b) The paper-backed evidence bags, paper bags, or cardboard boxes used to collect biological evidence at the scene should be placed inside plastic bags **only** for transportation to the Evidence Drying Facility (the plastic bags will be securely closed prior to being transported to avoid contamination of police vehicles and other areas).

- (c) For items requiring refrigeration/freezing, the words **REFRIGERATE** or **FREEZE** will be printed on the front of the evidence package where it can be clearly seen by PMB and LSB personnel.

- (d) A BIOHAZARD sticker will be clearly displayed on all packaging.

- (e) For sexual assault kits, IL/suspect biological collection kits, and strangulation examination kits, see section 5.E.(8) below for additional procedures.

(6) Sexual Assault Kits - A sexual assault examination and the collection of evidence (sexual assault kits) from a live sexual assault victim is the responsibility of a designated, trained forensic nurse examiner (FNE) or, if the victim is deceased, personnel from the Office of the Medical Examiner (OME).

- (a) Examinations of live victims are generally performed at the Phoenix Family Advocacy Center (FAC).

- (i) FNEs are responsible for the collection, drying, and packaging of sexual assault kits of live victims.

- Once the examination is completed, the kit is packaged per protocol and placed in a locked, secured temporary refrigerator.

- (ii) A Family Investigations Bureau (FIB) detective will assume responsibility of the kit by removing the kit from the temporary refrigerator and impounding the kit in a second designated refrigerator located at FAC (**see** section 5.E.(8) below for preparing and documenting the kit for impound).

- * If the kit is collected in another city/FAC (not Phoenix), the FIB detective will retrieve the kit from its location and then impound the kit in the designated refrigerator located at the Phoenix FAC.

- (iii) PMB personnel will pick up the kit from FAC and transport it to PMB for long-term refrigerated/frozen storage.

5. E. (6) (b) Examinations of deceased victims are performed at the OME with a Homicide detective standing by.

- (i) Personnel from the OME are responsible for the collection and packaging of sexual assault kits of deceased victims.
- (ii) Once the examination is completed, the kit is handed over to the Homicide detective and they are responsible for drying (if necessary), documenting, and impounding the kit (see section 5.E.(8) below for preparing and documenting the kit for impound).

(7) IL/Suspect Biological Collection Kits and Strangulation Examination Kits

- (a) IL/suspect biological examinations are generally performed on individuals potentially involved in a sexually based incident but can be completed in other incidents as well.
- (b) Strangulation examinations are generally performed on victims potentially involved in a strangulation/domestic violence based incident but can be completed in other incidents as well.
- (c) The examinations, to include the collection of biological evidence from an IL, suspect, or strangulation victim, are the responsibility of a designated, trained FNE.
 - FNEs are responsible for the collection, drying, and packaging of these kits.
 - Once an examination is completed, the packaged kit will be turned over to the assigned officer/detective and they will prepare, document, and impound the kit in accordance with sections 5.E.(8) and (9) below.

NOTE: This does not prohibit a trained biological collection employee to obtain buccal swabs as a standard from an IL, suspect, or strangulation victim.

(8) Preparing and Documenting Sexual Assault Kits, IL/Suspect Biological Collection Kits, and Strangulation Examination Kits for Impound

- (a) For each sexual assault kit, IL/suspect biological collection kit, or strangulation examination kit, all the envelopes with swabs collected during the course of an examination will be packaged in one evidence bag and listed and entered as one item in the Evidence section of the IR following the below procedures.

(i) Sexual Assault Kit swabs

- Select Victim Sex Crime Evidence Kit as the "Category"
- Select Evidence as the "Action"
- Select Victim Sex Crime Evidence Kit as the "Property Type"

5. E. (8) (a) (iv) **NOTE:** A laboratory request will not be automatically generated for an IL/suspect biological collection kit or strangulation examination kit; therefore, if an analysis is needed, a Forensic Form will be completed and submitted with *Process for DNA* as the "Requested Action".

(b) The remainder of a kit (clothing, blood tubes, urine samples, etc.) will be packaged separately in their own evidence bag and listed in the Evidence section of the IR under the appropriate "Category" (NOT under the *Victim Sex Crime Evidence Kit* "Category"): for example, *Item* for clothing, *Blood Tube for Alcohol/Drugs* for gray-topped blood tubes, and/or *Urine for Alcohol/Drugs* for urine samples.

NOTE: A gamma-hydroxybutyrate acid (GHB) analysis can only be performed if the sample has been collected 12 hours or less from the alleged incident; therefore, the time of the incident and the time of collection will be noted in the "Description" box of the Evidence section of the IR.

(c) Ensure the appropriate procedures listed in section 5.E.(5) above are also followed.

(9) Impounding Biological Evidence

(a) Dried, packaged biological evidence will be handed directly to a PMB technician during PMB's normal business hours (see section 6 of this order).

- After PMB's normal business hours, dried biological evidence will be impounded in the refrigerator or evidence lockers located in the PMB Annex at 621 West Washington.

(c) Suspected controlled substances/drugs and drug paraphernalia (pipes, hypodermic needles, syringes, razor blades, etc.) will not be placed loosely in evidence bags.

- Vials, plastic bags, cardboard boxes, and/or puncture resistant containers will be used to package these items prior to placing in evidence bags.

* If a plastic puncture resistant container is not available for a sharp item, the entire item may be taped to a piece of cardboard or other similar material, ensuring the ends of the item do not extend past the edges of the cardboard.

* Glass vials will be used for Phencyclidine (PCP) and products containing PCP.

- Hypodermic needles should be left attached to the syringe.

* Care should be used when packaging these items so the contents of the syringe do not empty out prior to analysis.

2. **ADMINISTRATION OF IRs**A. **IR Purpose**

- (1) An IR is the primary reporting document for recording any crime or incident, having occurred within the City, either reported to the Department or observed by an officer.
- (2) IRs convey information and intelligence to authorized persons other than the writer; therefore the primary considerations of reporting will be clarity, accuracy, and completeness of the information recorded.
- (3) An IR will be completed if the elements of a crime are present, even if the victim does not desire prosecution, suspect is unknown, or there is no immediate need for a follow-up investigation.
 - When in doubt, officers will notify a supervisor. If the elements of a crime are not present, an FI should be completed to document the incident.
 - Officers will decide if a report will be completed, not the victim.

EXCEPTION: Hit-and-Run reports not meeting the criteria as outlined in Operations Order 6.5, Traffic Accident Investigations, do not have to be completed.

- (4) IRs will be completed on criminal offenses involving adults and/or juveniles as suspects or victims.
- (5) The IR is designed to report the majority of offenses investigated by the Department and will be used as indicated in this order.

REPORTS**Operations Order****8.4****PHOENIX POLICE DEPARTMENT**

Rev. 04/18

PAGE 3

2. A. (5) (a) When the following specific report forms apply to an incident, an IR will not be completed:

- Arizona Crash Report (unless otherwise noted in Operations Order 6.5; Traffic Accident Investigation)
- FI

(b) For information on the IR and/or FI, employees may utilize the "Help" file tab on the top right portion of the FBR screen.

B. Federal Bureau of Investigation (FBI) – Uniform Crime Reporting (UCR)/National Incident Based Reporting System (NIBRS) definitions:

(1) Incident - One or more offenses committed by the same offender, or group of offenders, acting in concert, at the same time and place.

(2) Acting in Concert - All offenders actually commit or assist in the commission of all of the offenses of an incident. Offenders must be aware of, and consent to, the commission of all of the offenses; or even if non-consenting, their actions, or inaction, assist in the commission of all offenses.

(3) Same Time and Place - The same person or group of persons commit more than one offense and all the offenses have occurred during an unbroken time period at the same or adjoining locations

EXCEPTION: Incidents can be comprised of offenses which, by their nature, involve continuing criminal activity by the same offender/s at different times and/or places, as long as law enforcement deems the activity to constitute a single criminal transaction.

EXAMPLE: A bank employee manipulates the bank's computer over an 18 month period and systematically embezzles \$70,000 (the continuing criminal activity against the same victim constitutes a single incident of embezzlement).

C. Reporting Two or More Offenses

(1) Only one IR will be required when an incident involving more than one offense committed by the same suspect/s at the same time and location and acting in concert.

EXAMPLE: Two suspects commit a robbery in a bar. During the robbery, the first suspect begins to sexually assault a victim. The second suspect tells the first suspect to stop and only rob the victim. Although the second suspect did not consent to the sexual assault, by displaying a gun, he/she prevented someone from helping the victim and therefore assisted in the commission of the sexual assault. One IR will be completed listing the robbery and sexual assault.

- The most serious offense will be listed as the primary offense to ensure proper routing to the appropriate investigative detail.

(2) Separate IRs will be required if the addresses of two or more offenses are different-(separate of time and place) or when suspects do not act in concert during the commission of all the offenses of an incident.

EXAMPLE: If a series of theft from vehicles occur at the same approximate time but in different church parking lots, and appear to have been committed by the same suspect, separate IRs will be completed.

REPORTS**Operations Order****8.4****PHOENIX POLICE DEPARTMENT**

Rev. 04/18

2. C. (2) **EXAMPLE:** (Continued)

²When two suspects commit a robbery at a bar and in searching for additional patrons to rob; one suspect finds a female customer in a restroom and sexually assaults her. The second suspect was not acting in concert to the sexual assault (he/she was not aware). Two IRs will be completed (one for the robbery and one for the sexual assault).

- If more than two IRs are related, the first IR will have "See Narrative" in the "Related Report Number" box of the IR Heading section, the related reports will be listed in the narrative of the first report, and the related IRs will note the first IR number in the "Related Report Number" box.
- D. **Prioritizing Forms/Reports** - The listed FBR forms/reports will be completed and submitted for review and approval following the guidelines outlined below.
